How to Create your Compelling & Positive Future

Darius: Hello and welcome to the You Wealth Revolution Instant Awakenings. I am so excited that you're here. This is an incredible new season and an incredible time. So many people have been writing back to us in the last couple of the weeks as we've been building up and getting started saying how they're excited about everything new, all the freshness and the energy and the new possibilities that are here for you in your life.

And I've got to be honest. You know, we've done the work for years laying the groundwork in the energy circle and people like the guest today have been doing incredible things with people all over the world, increasing this frequency, increasing this vibration. And I'll even give you a pretty big confession - which isn't really a confession at all because I've talked about it so many times - is that this next guest that we have actually three years ago did some work on me - and continues to do work on me. But three years ago we did the big work that so many of you are going to learn about and really moved me into a different space energetically. So I want to talk about that. And many of you know who it is. It's Ann Taylor.

But here's what I want to do first. Please get on the sharing page and share this with your friends and family. Down below there's a Facebook sharing app where all you have to do... If you'd like, report what's going on during the call. Share what's happening to you, to others. Share what you're hearing, share what we're doing, or just say: 'Hey, everyone on my Facebook, come check out Ann Taylor. This is going to be like free huge energy work.' You can do that by going to youwealthrevolution.com/now – N-O-W. That's youwealthrevolution.com/now – N-O-W.

And the reason I'm here and the reason that I am so excited about today is that I believe each one of you have a gift, each one of you are special, each one of you have a power and a magic within you that once it's opened up, once it's unleashed in the world, once your heart and this energy comes forward, your life will be swept up by it in a good, beautiful, benevolent, loving, flowing way. It's almost like being in the ocean and being picked up by a beautiful wave and taken to a beautiful destination.

That happened to me through Ann in 2010. I was able to really let go of the things holding me back and be in my power and grace and love. And that really is what I want for all of you. So just remember that. Let this wave, whatever you start feeling, come over you and if it feels good let it take you. Surf it. Ride it into your next big future and possibility.

So we're going to be talking today about health, wealth, particularly money and wellness, and how to trust your guidance, how to create your compelling and positive future with ease and grace.

And I want to do a quick introduction on Ann. Many of you are familiar with her, but I want to let you know on this call you're going to learn how to empower yourself to know that your best times are ahead of you. We're actually going to be doing work. That's the big thing about the You Wealth Revolution is we do work on these calls. And it's not work; it's just moving energy and it's fun, but we're going to heal negative beliefs that your best times and your best finances are behind you.

A lot of people have that. Ann's got some incredible statistics on that. And we're going to empower you with inner strength and resilience to know that you can keep moving forward, that your life will become better no matter what. And we're going to empower you to believe in yourself and have the ability to create the life of your dreams.

Our guest today is Ann Taylor. She's the Founder of Inner Healing Inc. She's a personal friend and over the last 17 years she's used her healing gift to empower tens of thousands of people in 97 different countries to miraculously eliminate fears, worries and limiting beliefs that have haunted them their entire lives. All within a matter of minutes. And I think that's a big thing about Ann is she's so fast and powerful that you feel it instantaneously.

She's also worked with and is endorsed by Dr. Bernie Siegel, Joe Vitale, Robert Scheinfeld to name a few. She was a very successful stockbroker - many of you don't know this – for over 12 years, and she was the Vice President of a Fortune 500 company. When she found the wave of energy that moved her to her greatest life, then she was guided to change her path and discover her amazing ability to heal.

Over the past 30 years she though has been committed to personal and spiritual growth, learning new concepts and techniques that have empowered her to be of service and make a huge contribution to humanity.

She has a gift of creating instantaneous and miraculous changes in consciousness at a deep and profound level, and really to me it's unlike anything else that I've ever seen. You're going to feel it. You're going to get to experience a taste of it. And what's really unique about her gift – and I'll just say in my own words – is that it lets you actually take on a new consciousness so that the old limiting belief doesn't fit anymore. It's like opening up a big box and once you open up that big box you can't go back into that little box.

And it's been amazing. Her gift is to create these transformative changes whether you're hearing it live or recorded or one-on-one or with thousands of people at a time. So those of you on the replays or those of you that want to share this with family and friends, definitely it's just as powerful heard live or on a recording.

Her healing work is legendary here at the You Wealth Revolution and I'm honored to welcome Ann Taylor. Ann, welcome to the You Wealth Revolution Instant Awakenings.

Ann: Well, thank you, Darius. What a wonderful introduction. It's always just so wonderful to be here with your audience. You always have such a wonderful audience and I'm just thrilled, I'm just thrilled. I'm ready to get started.

Darius: Well, as I was looking over what you sent me this is what's astounding. I've never seen so many very physically grounded transformations. You sent me a huge stack of what people have been doing with your work. I just wanted to read some of them. And obviously everyone's results are different.

One person said: 'After 30 years of smoking cigarettes I no longer smoke them.'

Another person said: 'I got an amazing job after being redundant after 23 years of service. I got a \$15,000 increase in salary.'

Another person said: 'Physically I'm detoxifying big time. I feel like I'm in a fog. I have physical issues disappearing.'

Another person: 'This is the first time in my life that I actually really love, enjoy and crave healthy food.'

Another person said: 'My sales went up \$10,000 in the month of January.'

Another person said: 'I had an increase in clients.'

Another person said: 'No more medication for pain. This is really a miracle healing for me.'

And I've got to say everybody is different, but, Ann, these are huge transformations that some people are experiencing.

Ann: Well, they are, but I have to let everybody know that I'm not the healer. I'm not doing this, everyone. It's God that's doing the work – which you will hear on this program. And then I have another place where actually these transformations are taking place on a monthly basis because I just work with God 10 minutes a day on your behalf. And what happens is people have these incredible transformations and I just don't know until they actually email in and tell me what the incredible transformations are. But we'll get more into that later.

I'm actually going to talk to you about some of the... They're miracles, Darius, they're just miracles. And sometimes I look at some of the testimonials we get in and I just shake my head. I'm just so grateful that I have the gift to be like the middleperson here to be able to do this.

But God does the work. I don't have a clue how to create those results God does. I have a gift for asking. I have a gift for that connection to the divine. That's my gift. But God certainly does all the work.

Can I show them, because some are probably saying: 'What work? What is she talking about?'

Darius: Well, I think one of the things I wanted to do is – we have so many new people – was let's maybe show them, I guess, the journey of how you got here, and then at the end of the journey we can show them. And so it'd be kind of like the whole process from when you started to how you got here and then let's them feel where you are now and the result.

Ann: Okay. Well, I think you just heard Darius say I used to be a stockbroker. But I was a speaker at night. And you could always tell who I was into because I'd invite them to Unity Church – like Bernie Siegel or Wayne Dyer back then.

So when I began this journey as a healer it wasn't anything I was looking for. I didn't want it. But anyway, a long short made short, I got this attunement for healing; went home and started laying hands on people and getting results. And how I learned to

do it at a distance – because this is back in 1995. There really weren't any books. This was back in the Stone Age of this type of work.

Darius: Right.

Ann: So I did this because at that time I was Senior Director of Development at Unity School of Christianity. I was working at Unity, so I'd take clients on the weekend. And Sally calls me – this lady calls me – on a Sunday and she says: 'I can't come. I'm sick. We're going to have to do it on the phone.'

Now, I did not know long-distance healing existed. I did not know there was such a thing. So I grabbed a teddy bear and I grabbed the bear and I pretended in was Sally and put my hands on the bear. And I worked with Sally for a half-hour and half an hour later she was going to the mall and I had a long-distance healing practice. I even called up Dr. Bernie Siegel, because I figured I needed people to work on. So I called Bernie up. I said: 'Let me try this out on you.' Give me something you'd like not to have.

So that's why I would call people across the country with this bear in my hands – thinking it was the bear, you know – I had to go through the bear – which was not true. But that's how I learned a lot of this. I felt I had to follow my guidance, everybody, and that's something that I'm big on, especially today, is following your guidance – which you get from God, that kind of guidance.

So that's basically how this career has evolved is that I have followed my guidance. And I've always said to God... I often said when God tells me to do something – which I'm going to tell you about a little bit later – 'You want me to do what?' Not always an 'Oh yeah, I'll do it because I'm getting this guidance.' Sometimes I'll go... And I'll have this long conversation – 'Explain this to me again. This'll work?'

So it's interesting to be in that divine alignment. You can create any career this way. Not just a healing career. You can create any career this way. Because your way's going to be a little bit different than anybody else's way. And so by following your guidance...

So that's how I've done it, because I didn't have a teacher. I read a lot of books but I didn't have somebody to guide me. I had God to guide me. So that's how I've done it, Darius and everybody, is just by following my guidance.

And that's how I make up new pieces of healing work is God guides me. And God's been guiding me on a couple of things this morning that I've tested out. And something that really works – and this is always a good introduction to the work – is that... And I've seen people's whole situations change just from this one piece of work. This is what we're going to do, is just ask all of you to bring up some negative thoughts and memories that you have. They can be really traumatic ones that you've had. Bring them up. And what God's going to do... God is going to take the negative charge off those negative thoughts and memories. When God takes the negative charge off those negative thoughts and memories they go away. Either they turn to like black and white photos were they have no charge – they mean nothing to you – or they completely disappear.

Darius, I don't think you have any, do you?

Darius: We all... You know, certainly, I mean, I want everyone to know, you know, I keep doing this work and I'm very grateful for the challenges that come up, because this keeps me grounded in continuing this expansive journey. So sure, I've got fears or little things that are sort of nagging or pestering, of course. I do, yes.

Ann: Okay. Well, then you can bring these up. If you bring up the negative thoughts and memories around them... Just bring up the negative thoughts and memories, they'll disappear. So we'll see if they disappear. He'll be our litmus test, everybody.

So I want you to bring them up, and bring them up as fast as you can, as fast as you possibly can, because God will heal them that fast. So here we go. Just bring them up. Here we go.

Thank you, God. I ask God to heal the negative charge on all negative thoughts and memories as you bring them up now. Thank you, God. Thank you, God. I ask God to heal the negative charge on all negative thoughts and memories as you bring them up now. Thank you, God. I ask you, God, to heal the negative charge on all negative thoughts and memories as you bring them up now. Thank you, God. I ask God to heal the negative charge on all negative thoughts and memories as you bring them up now. Thank you, God. I ask God to heal the negative charge on all negative thoughts and memories as you bring them up now. Thank you, God. I ask God to heal the negative charge on all negative thoughts and memories as you bring them up now. Thank you, God. I ask God to heal the negative charge on all negative thoughts and memories as you bring them up now. Thank you, God. I ask God to heal the negative charge on all negative thoughts and memories as you bring them up now. Thank you, God. I ask God to heal the negative charge on all negative thoughts and memories as you bring them up now. Thank you, God. I ask God to heal the negative charge on all negative thoughts and memories as you bring them up now. Thank you, God. I ask God to heal the negative charge on all negative thoughts and memories as you bring them up now.

Notice that when we were doing this piece of work you brought up those negative thoughts and memories. Just go back and think about them now. So the negative charge on those thoughts and memories are gone. They're just gone. You can't get a hold of them any longer.

So what happens is when you take the negative charge off negative thoughts and memories, they no longer... they're just not there, and they can no longer go out into the future and create your future, or they can no longer have a negative impact on you.

This is a piece of work that I give away in something that I'll talk about here. I was going to check with Darius. How's it going, Darius, about those negative charges on the thoughts and memories?

Darius: It was really interesting, because right as you started, I think – and a lot of people did this too. Every time we do this people are writing in and stuff and I remember what people said. But for me it was like... when you were doing it I was thinking about this stuff and I was like: 'Well, no, this isn't going to work. I can still feel it. I'm

still going to be able to bring this up and I'm going to feel...'

So after about the first three I started feeling it kind of weaken and then it was like the charge in the middle of the thought and memory sort of was gone but then there was like that final little sting at the end. I think some people probably could relate to that. And then as you kept going, as you got to the end, like the picture actually got black and white. So it was no longer in color and it started getting more fuzzy. And now, just when you were finishing, I was saying it was 80% was in mind. 80% came up. Like 80% has gone and it's like only 20%. And now I just don't really feel it. It might be like at 1%. It's just really pretty much gone.

Ann: So it's a pretty strong issue for you. By taking the charge off the negative thoughts and memories it really deflated it.

Darius: Exactly. Exactly. Exactly. And you've done this with our group. One time that you did this somebody said: 'I'm blown away. I feel numb. The memories were washed away.' And that was Valentine in Staten Island.

Other person – Jada – had said: 'I just had something that felt like it actually rolled up and left my body, from my feet and head and straight out of my chakra. Thanks, Ann.'

So this works all across time and whenever you do it. Amazing.

Ann, I want to do this. A quick question that I had was why do you think that it was important to choose the topic *How to Create Your Compelling Future*?

Ann: Well, I like Tony Robbins and some of his talks. I listen to Tony every once in a while – about once every six months – and this is a Labor Day talk he did. He said that 65% of the population of the United States believes their best days are behind them. And he said it's like 90% in Italy and 70% in Spain. You know, it was much larger over in Europe.

So he said only 35% of the people believe their best times are ahead of them. And I sat there and I listened to his whole talk and I went: 'Holy smokes!' If you don't believe your best times are ahead of you then this is going to be really tough. Any of the other work that you do is going to seem really tough if you don't believe your best times are ahead of you. If you're trying to create a career or you're trying to create anything – a special mate in your life or... You know, whatever you're trying to...

Darius: Health. What about health? What about money?

Ann: Oh well, yeah, health and money. Good. Thank you, Darius. That was perfect. If you don't believe... How about health? This would add significantly to your health. If you believe your best times are ahead of you no matter what's going on in your health, that's going to significantly improve your health.

I don't know if you've seen this lady or not but there's a lady that has a brand new book out. Her name is Lissa Rankin and she's on the *New York Times* bestseller list. She believe it's creates the health that you have. It's amazing. She's a modern-day

Bernie Siegel.

But anyway, it's incredible that if you believe your best times are ahead of you – with anything... With wealth you have to believe that, that your best times are ahead of you with wealth... to create wealth. And some people believe that their best times are behind them. So I'd like to do two things. If you are one of the ones – the 65% - that believe your best times are behind you, we want to heal that. And then we're going to replace it with the belief that your best times are ahead of you. How does that sound, Darius, to you?

Darius: It sounds wonderful. And what I want to say about... you know, it's one thing to say yes, your beliefs affect your future and your health and it's a great thing to study and understand how the science work on that. It's another thing, however – and this is where you're different from anybody that's out there talking about the link. We know the link's there and it's great to have the science, but what you do is you actually change the belief. So it's one thing to know it; it's another thing to have energy transformation, and that's kind of what we do here at the You Wealth Revolution. So we take it to a whole other level.

Ann: Exactly. You have to have your change in consciousness. You can't just know it intellectually, because that won't do you any good. You have to actually experience it. And I've actually had – not with Darius but another host – I've been on their event. They said really they were positive and they believed their best times were ahead of them. And then we got through the work and they said: 'You know, I even believe it more now.'

Darius: Yeah.

Ann: But if you think you believe – and a lot of you do – that your best times are ahead of you, know that when this is over you'll believe it even more. And that's even more compelling when you believe it even more. So are you ready, Darius?

Darius: I'm ready. So we're going to do some work, guys. So if you're new here this is where we have some fun, so get ready. Ann, I'm ready. Take it away.

Ann: Okay. This is God does the work, everybody. It's different and you'll hear me repeat the same things. But first we're going to do it in your consciousness, then we're going to heal what you get from your mother and father, which is very important - they're very, very important figures in your life as to what you believe. Then we're going to go back to you ancestors and we're going to go back 10 generations. And when we go back 10 generations that's 5,000 people. So here we go.

Thank you, God. I ask you, God, as is it God's will to you and your highest and best good and the highest and best good of all, I ask God to heal the belief that you have that your best times are behind you, that your best times are behind you. So thank you, God. I ask God to miraculously heal the belief that you have in your entire consciousness, in the physical and the etheric the belief that your best times are behind you, and I ask God to miraculously heal that belief in the physical and the etheric now. And God, I ask God to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all that

empowers you no longer believe that your best times are behind you and/or something even better. And God, I ask you to create that consciousness for them now. And God, I ask you to use your technology and program and imprint them in their physical and the etheric with that consciousness now. Thank you, God. Thank you, God. I ask you, God, to miraculously heal any beliefs that you brought in from your mother and father that your best times are behind you and I ask God to miraculously heal that belief in the consciousness you got from your mother and father in the physical and the etheric permanently now. Now I ask God to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all that empowers you to no longer believe that your best times are behind you and/or something even better that is God's will for you and your highest and best good and the highest and best good of all. I ask God to create that consciousness for you now. I ask God to take that consciousness and program and imprint the entire consciously you got from your mother and father in the physical and the etheric permanently with that consciousness now.

Now we're going to go on to your ancestors.

Thank you, God. I ask you, God, to miraculously heal in every one of your ancestors, every generation going back 10 generations the belief that your best times are behind you. So thank you, God. I ask God to miraculously heal the belief in all your ancestors, every generation going back 10 generations the belief that your best times are behind you. I ask God to heal those in every one of your ancestors in the physical and the etheric permanently for all eternity starting now. I ask you, God, to create a consciousness for every one of your ancestors, every generation going back 10 generations that empowers you to no longer believe, for each one of them to no longer believe that their best times are behind them. Thank you, God. I ask God to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all that empowers you to no longer believe that your best times are behind you and/or something even better that is God's will for you and your highest and best good and the highest and best good of all. I ask God to create that consciousness for you now and I ask God to take that consciousness and program and imprint every one of your ancestors, every generation going back 10 generations with that consciousness starting now. Permanently, starting now. And as it is God's will for you and your highest and best good and the highest and best good of all, I ask God to heal the negative charges on all negative thoughts and memories that you have your conscious and your subconscious mind and no matter where that you have them.

You have something called the nonlocal mind and it's a different one than conscious and subconscious. So what I'm going to do is I want God to heal all the negatives charges that you have on all thoughts and memories no matter where they are that would have you believe that you best times are behind you.

So thank you, God. As it is God's will for you and your highest and best good and the highest best good of all, I ask God to miraculously - miraculously - heal 100% of the negative charges on all negative thoughts and memories no matter where you have them in your conscious and subconscious mind and the DNA in your brain, in your nonlocal mind – wherever they are – that would have you believe that you best

times are behind you. I ask God to heal the negative charges on all those negative thoughts and memories until they're 100% completely healed starting now.

Okay, that may take a little bit – like 5 or 10 minutes – but it should be gone pretty soon. That should be gone as far as... Because that's a lot of negative thoughts and memories, if you think about this, that you might have, even though you may believe that they're ahead of you.

Yes, Darius just breathed. And everybody take a deep... just like...

Darius: Yeah, we always want to do that. If we just kind of release and it's just a whole new reality. Because for me I already... The room seems brighter – and this is just me – and every time we work together the room seems brighter and it's like I start just feeling a lot lighter, kind of more giggly, more bubbly, breathing deeper. My heart rate seems to like go down. Stress seems to leave and I'm just a lot more complete. It's amazing.

Ann, the last time you did this we had Sonia in West Covina say: 'Thank you, Ann and Darius. I'm feeling so good right now.'

Another person – Lisa – in Paris the last time we did this. She said: 'Every time I hear the word 'lineage' in the clearing,' – which I want to talk about why you do that – she says: 'I get goosebumps. This is the second time I've had the privilege to be healed over the waves of the internet, and since the first clearing I haven't been worrying about anything. Thank you, Ann and Darius, and thank you for allowing this to be.' She says her heart was pounding.

So, guys, you're probably beginning to feel different things. Send it in to us. Let us know what's going on.

Ann, really quick, why do you go into the lineage? There's a lot of new people that may not understand why it matters what beliefs our ancestors had. How can that affect us today? Why do you go in and work on that?

Ann: That's a good question, Darius. Everybody, your ancestors really do affect you tremendously. I can actually feel people's... I can feel my lineage. I know what basically is on each side. I can feel it. If you think about why royalty goes out and they have arranged marriages...

Darius: Okay.

Ann: They arrange the marriages for this reason. They go back and look in the ancestry of the person that's going to marry. They want to make sure that it's clean; there are no bank robbers, horse thieves. You know, they want to make sure that it's healthy, that they're really mentally and emotionally stable people, because they know how much the ancestry plays into not only the person they're going to marry but also the kind of children they're going to have.

Darius: Oh my gosh.

Ann: Yeah. And this is important. So that's why, because it really does... And that ancestry, I can guarantee you that it's really, really affecting you. In fact, it's affecting you about 30% about what you believe - that and your past lifetimes. It really affects you tremendously. And your mother and father together, which is part of your ancestry, it's huge the affect that they have. So that's why I do the ancestry.

Darius: What are some red flags? I don't know if 'red flags' is the right word, but things that... you know, if we were going to say okay, could there be energies that I don't want in my life? What would be some things you might look back on your lineage or even your mother and father and spot as possibilities that, okay, maybe I have that in my life too? Would it be money challenges, relationship challenges, health challenges? What would be some things you'd look at?

Ann: All of that. For instance, in my family my mother had this thing 'never good enough'.

Darius: Okay.

Ann: No matter what it was, no matter what I did, it wasn't good enough. But her mother had it too.

Darius: Okay.

Ann: My grandmother had this 'not good enough', which she passed along to my mother and my mother passed it along to me. So there was no secret why I had this 'not good enough' stuff.

So that's how it works, everybody. And, everybody, when I used to do private appointments... I did 10,000 hours of private appointments and I used to ask people: did you parents have this issue? Nine times out of 10 their parents had the issue.

Darius: Wow. Wow.

Ann: So if you have an issue, you more than likely got it from your parents. And where did they get it? They got it from their parents. And where did they get it? They got it from their parents.

Darius: Is this your secret for staying upbeat, positive and being abundant and moving forward? Is this one of the things that you've worked on is clearing that ancestral DNA?

Ann: Well, actually you're actually clearing the ancestors themselves. They've all reincarnated, so they're..., you know. What you're doing, we'll get into that a little bit later. But the keep up being positive... I'm going to use a process. I used a process on me that we're going to talk about a little bit later...

Darius: Oh, cool.

Ann: Because I'm constantly looking for new ways to help all of you. And I listen to my guidance and I'm listening to God - 'Tell me how to make it better.' And I ask God to work on me for like 24 hours at a time. It'll be something like self-confidence - that's the Number One inner strength everybody wants to have. Let's say for self-confidence. And bring it in from past lifetimes. You know, program it so it comes in

from past lifetimes. Program it so it comes in from my lineage. Program it so it comes in from my parents. Whatever God determines. Because God wants 20 times more for me than I want for myself. So I let God do the choosing how that manifests in my life.

Darius: And I know that's something you do with people over 21 days and we'll probably talk about that too. Money. Money, I know is a big one. And money is something... I mean, when you look at a lot of people that are very wealthy, many times it's a wealth that's traveled through generations. And not even so much the money itself – although that can be – but the beliefs about money or the lack of blocks around money tend to help generations become wealthier. Where if people that have parents with money challenges it tends to block their kids from ever having money.

Is money a big energetic block that seems to also go through generations and generations in your clients?

Ann: It not only goes through generations it goes through past lifetimes too.

Darius: Okay.

Ann: It goes through generations, but you're going to find it going generations back that if you have problems with money and your parents probably had problems with money – at least one; usually two – and if they have and then you look at your grandparents and your grandparents had problems with money, if you were fortunate enough to know your great-grandparents they had problems with money too.

There is a way out though. There is a way you. You can redo it. You can redo your ancestors, you really can. Can I show them the positive side of this?

Darius: Yeah. I know we're going to get there. Whenever I ask you about stuff we end up doing something as a gift for everybody. So yeah, let's take them there.

Ann: Okay. I'm going to ask them. I want you to do that you know that you best times are ahead of you. And, Darius, you've got a lot of good things going on in your life, I know, so you must feel like your best times are ahead of you. You're fairly young and you're... So, Darius, on a scale of 1 to 10, 10 being you couldn't feel better about your best times being ahead of you if you tried, how do you feel about your best times being ahead of you?

Darius: I would say about a 7, because we do have challenges. It's a family member that's not doing that well health-wise and we're working on a lot of these processes to help them. So there is always... You know, we all have challenges no matter what's going on. We have things that we want to bring into a light energy. So I'd say about a 7 – which is okay, but maybe not necessarily a 10.

Ann: That's not bad, but I want to see how you feel after this process.

Darius: Okay. I love it.

Ann: So everybody, I hope you did along with Darius. Just take a litmus test just to see where you are in feeling like your best times are ahead of you and go: Ah, so-so. About a 4 or 5. Or a 3 or... or hey, I'm a 10.

Darius: Yeah, let's to that, everyone here listening in. I want everyone to do that. And the last time we did this we had quite a few people that were at the 4s, at the 3s. Some people at the 6s. We actually had quite a bit of people like at the 1 who really felt like it just wasn't... They were at the bottom, and I know, and we're here for you.

So just make note of that and, Ann, I'll let you take it away, because we're going to move that right now.

Ann: Okay. Here we go, everybody. Now, this is going to be fun. All that you have to do is sit back and listen to the words. You don't have to do anything. Just listen. God will do all the work for you. So here we go.

Thank you, God. I ask you, God, to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all that empowers you to know that your best times are ahead of you and/or something even better that is God's will for you and your highest and best good and the highest and best good of all. And thank you, God. I ask you, God, to create that consciousness for you now. Thank you, God, for creating that consciousness for them now. And I ask God to take that consciousness and program and imprint it in your entire consciousness in the physical and the etheric permanently – permanently - with that consciousness now.

Thank you, God. Thank you, God. I ask God to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all that we're going to program and imprint the consciousness you got from your mother and father with. So what we're going to do...

Thank you, God. I ask God to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all, that empowers you to know that your best times are ahead of you and/or something even better that is God's will for you and your highest and best good and the highest and best good of all, and, God, I ask you to create that consciousness now. And I ask God to take that consciousness and program and imprint the consciousness you got from your mother and father permanently with that consciousness now.

Thank you, God. I ask God to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all, that empowers you to know that your best times are ahead of you and/or something even better that is God's will for you and your highest and best good and the highest and best good of all, and, God, I ask you to create that consciousness for them now. God, I ask you to take consciousness and program and imprint every one of their ancestors, every generation going back 10 generations permanently with that consciousness now.

I'm going to ask you to take a deep breath now. Just take a deep breath, just breathing in through your nose and out through your mouth. And then take another deep breath, just breathing in through your nose and out through your mouth, letting all the air go out of you, just out of your lungs. And what this does... There's nothing magical about it. It just speeds up the energy. That's what it does.

Now, Darius, how are you feeling about your best times being ahead of you now?

Darius: Oh, it's up to like a 9.5. I mean, it's just different. There's no one thing that I'm imagining, it's just an openness. What I felt before was like when I think about the future there's like maybe a heaviness on the left side, just sort of like a blob of dark heaviness on the life side that's sort of... it's not keeping me down super low, but it's not letting me totally expand. And now I just see clear. This is clarity. That's just the way my body perceives energy. It's just clear. It's open. So whatever it wants to be, whatever I decide I need to be or do, it's there's, it's all possible. I don't see that dark blob anymore.

And I want to hear from other people, because actually this is the kind of thing that you'll start feeling with energy and Ann's work is things will be different for you. Maybe it'll be a picture in your mind of something that you want to see happen and you believe it will happen. Maybe it's just like there's not a dark spot somewhere or not a heaviness or not a perceived feeling.

One person the last time Ann was on – Yvette in Gibraltar actually – all over the world! – she said: 'Thank you so much. I was feeling really negative. You've given me hope. Bless you.'

Another person – Grace – said the last time: 'I am so free right now. I've been beating myself up and now I have the courage to face my next move and look forward to this new adventure that I'd been afraid of in making that move. Thank you Ann.'

Another person said: 'This is truly miraculous. I let go of a negative attitude that I never imagined I'd be able to let go of.'

So you guys might be feeling a lot of that and that's exactly the power of what Ann does - starts to move the energy. You'll start to feel differently. You won't have the same heaviness or lack of faith or belief in yourself and in your future.

Ann, are you still there?

Ann: I am still here.

Darius: Yeah. I mean, that's what I'm feeling. Here's a big question. One of the things I wanted to ask is: is this mental? Is this like a belief or is this purely energy – or is there a difference?

Ann: It's all energy anyway. I know that you would know this. But what it does is it actually creates the belief. But when I God to do this and/or something better... I ask God to do whatever else God does but I ask God to do this and/or something better. And when God does God creates a belief, but you're going to have... Because we could have a thousand people on the call and you're all different. You're all different. So God would create whatever you needed to believe that your best times are ahead of you. God knows exactly what you're going to have to know to really believe that.

So God just custom engineered that for you and programed it in those different places that I asked for to know that your... And it's probably a combination of beliefs. See, to know that really your best times are ahead of you... And I ask them to be permanent. I leave it up to God as to how long permanent's going to be. Permanent could be a thousand...

Darius: Okay.

Ann: So does that make sense?

Darius: Yeah it does. It does. I want to talk about another thing that you do, and I know you do this in the 21 days. You did this to me. It's actually installing beliefs. Tell me about that. How do you do that? What does that mean when you...? You clear the belief but then you also install the energy maybe that someone's looking for. And we'll kind of hear my story once you tell people how you do that and what it is.

Ann: Well, if you want to believe something we can program it into you. In other words if you want to believe in yourself and your ability to create the life of your dreams... Whatever you want to believe I can ask God to create that and program it in. If it's God's will... See, this is the caveat. If it's God's will for you, your highest and best good and the highest and best good of all. So you hear me say that a lot. So it would be programed right into you if you want to believe something.

Like a lot of times I'll ask people to eliminate their worry about money and God will eliminate that, but right behind it I'll ask God to create a belief for you that empowers you to no longer worry about money. If you're letting go of a worry or a fear you have to put something in to takes its place, because if you let go of just the worry or fear and you don't replace it with something it will come back. So if I'm doing a worry or fear you have to replace it. There are some exceptions but on a call like this or on the recording that I have... but are some exceptions when I ask God to do this in past lifetimes. I don't necessarily do that but that's a whole different story. But in this case, yeah, I'd ask God to create a different consciousness, because if you're no longer to worry about money, for instance, you would have to have a new way of believing to no longer worry about it.

Darius: Exactly.

Ann: Yeah. So if I just ask God to heal the worry about money... It would work, by the way, but it would work temporarily and the worry would come back, because you didn't have a different consciousness. The same consciousness that created the worry about money is still there, so it would recreate the worry about money.

Darius: And this is the thing I want people to get about energy is that you can remove the energy, you can release the energy, you can let it go. But if we don't install the belief or the energy of that vibration of knowing that things are going to get better or that vibration of being in that space of things getting better then you will tend to go back into... or pick up energy. It's like you leave a void, you leave a vacuum. One of the universal laws is that a void or vacuum always gets filled. So if we don't refill it it gets filled up with something that we don't want.

And this is true, because, Ann, I mean, we did some work together years ago. We were actually talking about it before the call. It was in September of 2010, which was a while ago. Do you remember that?

Ann: I remember it. I remember it. I sure do. Darius and I, we were just getting to know each. So he had some challenging issues going on in his life. I said: 'Well, let's just go for it. Let's just work with some of these issues.' And he didn't really know me. He was introduced by a mutual friend. So we worked for half an hour, an hour, something like that. We just went down your library list and we just kept checking them off. And what were some of those, Darius?

Darius: Well, I was starting a new business – actually was starting the You Wealth Revolution. The You Wealth Revolution had not even started yet. I had moved to another city. I had just gone through a pretty difficult divorce. That was my first marriage. It didn't work out. And had all sorts of things happen. I mean, financially things were just like starting back at almost zero, and all these challenges. And also in a new relationship – a person I loved very much – and wanted to make that work but was scared to death of going in again because of what had happened. And was in a new city, but even though – and here's the thing, guys – even though I was in a new city there was this same old energy kind of following me around and I felt it coming back up.

And in September of that year, 2010, we got to meet and we did some work. Ann was adamant that, okay, you're going to do this. And I kept saying: 'Oh, well, you know, it's okay...' And she kept saying: 'Let's set up a time and let's do it. Let's do this.' So we kept doing the clearing work.

And then she started installing beliefs. She started installing the confidence of, let's say, a Donald Trump, the vision of a Richard Branson and all these people that I really vibrated with in with different ways. Not that I wanted to be exactly like them but there were certain traits. And she installed that.

And to tell you, three years later... And it wasn't even... Just a year later my businesses and the mission I had expanded in a huge way. I'd become very successful in no time. What I couldn't do in ten years I was able to do in about a year. I ended up marrying that person that I had that relationship with and, you know, I think I went out and got the ring like a couple of weeks later. It's like I wasn't even worried about it. I was ready to fully commit and the universe opened up to me.

From that, that person... you know, we now have two baby boys. They're almost a year old. We've moved into our dream house and have really had an amazing life, and I attribute it greatly to Ann, because it's that energy that I needed to let go of, that I was dragging with me from Houston, and all of that old stuff even in this new city of Austin where I had moved to. And that would have just repeated the same pattern. It was just following me around.

Ann: Oh, that is perfect. I mean, I'm so glad there's such a happy ending to it. But Darius was so open too. I mean, he was open, he was ready to go - as all of you are or you wouldn't be on this call.

Darius: Well, let's do this, Ann. I want to do something else. Let's keep doing more work. What is something else that we can do for them that they might be feeling stuckness to, and then after we release that let's install something for them.

Ann: Okay. What would your audience like the best? What would like to feel? Would you like to feel optimistic about your future?

Darius: Abundance. I'm feeling coming in abundance, and abundance being an abundance of money and also more heart of what matters to them, of what really fires their soul, really fills them so they feel alive, so they feel awakened, so they feel complete.

Ann: Okay. So in order to feel complete and awakened and alive you're going to have to have some really... How about a passion? You have to have passion for life. If you want to really feel awakened and you want to feel alive and if you want to really go out there and create the dream you really have to have passion. What do you think, Darius?

Darius: I love it. I love it. Yes.

Ann: Okay. I want you to really have some passion. Just check within your passion where are you with your passion. You're a pretty passionate person, Darius. Where are you with your passion right now?

Darius: I'm probably at like a 6. Well, actually probably more like a 7 or 8. I've actually had a lot of people writing as we've started this season that are really not sure what to do; unsure about the future – I mean, really at a 3, at a 2, at a 4. So I know that this is a huge thing for people, is that real strong passionate belief that things are going to get better.

Ann: Well, things are going to get better. How about if you know your best times are ahead of you then you know things are going to get better. If you know your best times are ahead. And if you have passion, if you really have passion, then it really starts your engine. So just check out your passion and here we go.

Okay. I ask God. Thank you, God. I ask God to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all that empowers you to have passion, passion for life, passion for your life, and/or something even better that is God's will for you and your highest and best good and the highest and best good of all. So thank you, God. I ask God to create that consciousness with that passion for you now and I ask God to take that consciousness and program and imprint the entire consciousness, your entire consciousness in the physical and etheric permanently now, with that consciousness now. And thank you God. I ask God once again to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all that empowers you to have passion, passion for life, and/or something even better that is God's will for you and your highest and best good and the highest best of good of all and I ask God to create that consciousness for you now and I ask God to take that consciousness and program and imprint that consciousness you got from your mother and father permanently with that consciousness now.

Thank you, God. Thank you, God. I ask God to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all that empowers you to have passion, passion for life, passion for your life, and/or something even better that is God's will for you and your highest and best good and the highest and best good of all and, God, I ask God to create that consciousness for you now and ask God to take that consciousness and program and imprint every one of your ancestors every generation going back 10 generations permanently with that consciousness now. And thank you God. I ask God to heal the negative charges on all negative thoughts and memories that you have no matter where they are that are keeping you from feeling passion, that passion for life, that passion for your own life, for your own life.

So thank you, God, as it is God's will for you and your highest and best good and the highest and best good of all I ask God to miraculously heal the negative charges on all negative thoughts and memories no matter where they are, no matter where they are, that would keep you from feeling that amazing passion, passion for life, passion. So I ask God to miraculously heal all the negative charges on all negative thoughts and memories no matter where they are now.

Now I'm going to ask you to take a deep breath. Just breathe in through your nose and out through your mouth, letting all the air go out of your lungs. Let's just do it one more time. Just breathe in through your nose and out through your mouth, just letting all the air... There you go. There goes Darius.

An important part of that process, by the way, was healing the negative charges on the negative thoughts and memories no matter where they are. God knows I mean the local mind, I mean your conscious and subconscious mind, I mean the cells of your body - because these things are hanging out all kinds of places.

So it was really important for you to get that passion going too to heal the negative charges on all the negative thoughts and memories that were keeping you from experiencing it.

So I'm going to check in with Darius now. How are you doing, Darius, with your passion?

Darius: I would say just asking my body I get a 10. I can't say why. It just said a 10. The number that comes up when I ask myself is a 10. For a lot of you, you might feel that. Like you just ask your body what's the number - you know, ask yourself energetically what's the number at a 1 to 10, 10 being the highest, and you just feel a number come forward.

And I know, Ann, we've done this passion before the last time you did this. One person said: 'I experienced involuntary little shudders that run through my spine and I can feel so very much the weight lifted. Thank you, Ann and Darius, for this lovely show.'

Another person - Denise in Oak Lawn - had said before: 'Thank you, Darius and Ann. I feel confidence coming to me. I'm happy. I'm letting go of my fear of any future problems. I can see a positive outcome.'

Another person – Helen – said: ‘I’m bubbling with possibilities without all the negative thoughts that stopped me in the past.’ And I think that’s the thing about having passion, is having belief that things will be better, that you can live in this great best life and make it happen.

Ann: Right. And this is really true, because you just don’t want to keep healing the negative.

Darius: Right.

Ann: If you keep the negative, negative, negative, you're not getting any of the positive, positive, positive. You need to get a lot of that positive in there. In fact, I'll be talking soon here about telling you about how that works, about getting the positive, positive, positive – because it really drowns out the negative.

Darius: Right.

Ann: It does.

Darius: Right.

Ann: If it gets programed in right the positive will drown out the negative. That’s why it’s great that you’re focusing on the positive, Darius.

Darius: Yeah. I want to talk about kind of... I know you've had some very deep experiences with people and during your last event that you do - it’s like a 21-day thing people do on the internet – you actually go very, very, very deep into all of these things. People are asking about this. Tell me about kind of how that works with people just generally. How do those 21 days work and what are they doing that might be a little different than what we’re doing here?

Ann: Oh, it’s very different. Every day I sit down for 10 to 15 minutes and work with God on your behalf.

Darius: Okay.

Ann: And there’s like 2,500 positive beliefs that you get on 19 different subjects. And I call these the bedrock ones. The reason I call it bedrock... because if we went and programed you with a bunch of beliefs, positive beliefs, about money – which we could do...

Darius: Okay.

Ann: But if you don’t have a foundation of really solid self-esteem and feeling good about yourself underneath you, you're not going to do anything with them.

Darius: Right.

Ann: You're not going to do anything, because you won’t have what I call the bedrock underneath you. So that’s where the 2,500 beliefs come in. It gives you a real bedrock. And they’re in all different kinds of categories. There’s one that’s... It’s really funny, because you get a daily email from me every day telling you what the

work was the day before. And people love the daily emails. And one of the reasons they love it is they say: 'Oh my God, I know I why that happened.' Like this one lady... Something I also do is that I ask God to heal the negative charges on all negative thoughts and memories you have about your mother and father, and that's because we want to heal the relationships – and we get this in the program.

Kerry wrote in. She said: 'I was surprised this morning wondering why all those negative charges have stopped annoying me. So when I read today's letter,' – she calls it a letter – an email – 'I was utterly amazed to know the answer, although actually I should have understood from the beginning that the source of this unbelievable blessing was God through your wonderful, valuable work.'

What I had asked God to do the day before is to heal the negative charges on all negative thoughts and memories they had about their father. And that's really important. And then the next day I did their mother. So that's really important that you... People have healed relationships with their parents.

So not only do you get these bedrock beliefs of 2,500 – which you'll see on the page which Darius will direct you to soon... You get these 2,500 beliefs. And this is something we're going to... This next one is on health, wealth and intuition and I don't really eliminate any negativity. This is all positive that you get imprinted. And I don't imprint you for trusting your intuition, but you get imprinted with it. Because where do you get your intuition from? You get it from God.

Darius: Right.

Ann: God is God. So you get programed... For instance, you get programed for unshakeable faith and trust in God to help you. Not just unshakeable faith and trust but unshakeable faith and trust for God to help you. And that gets programed in your ancestors... God works on this 24 hours. It's just not a one shot like I just did. God actually works on your ancestors for 24 hours in a row programing them and programing and programing. And God works on the consciousness you got from your mother and father ongoing, continuously for 24 hours in a row programing them for this. And this is really important. I don't know of any other program... And if you know of any let me know, Darius, because I want to know if there is another program out there, because you would know.

God also works on your past lifetimes. And God works on your past lifetimes to program you what you need to have programed in to bring in from past lifetimes, which I didn't... These past lifetimes have an amazing affect on you, an amazing affect on you. So you would also get programed with unshakeable faith and trust in God to help you. So when this is all over...

And that's just one. Like with the health one you get programed with you're worthy and you deserve to have excellent health. If you believe you're worthy and you deserve excellent health, you're going to draw it to you. And you'll get five more. And there's different categories. There's six in each one of these categories, which you're going to see when you go to the page.

And money... you're going to get you are worthy and you deserve to have all the money necessary to meet all your needs and wants. If you believe that you're worthy and you deserve... Whenever you believe you deserve something you draw it to you like a magnet to steel filings.

Darius: Yeah. Yeah.

Ann: So if you believe that you're worthy and you deserve to have all the money necessary to meet of all you needs and wants you start drawing it to you, especially if you get it programed from the consciousness you got from your mother, your ancestors and your past lives.

Every 21 days we have between 35 and 55 pages of testimonials from people.

Darius: Wow.

Ann: Last month we had 52 pages of testimonials.

Darius: 52 pages of testimonials. And that's because the 21 days is just deeper. It's more of this. It's going in and doing everything you said. So this is really cool. And I've noticed a lot of people retake this and just want to keep doing it, because it's almost like a tune-up or a way to go in and work on something else or clear something else and reinstall something else.

Ann, I know you also wanted to share kind of some experiences that people have had and I think through the energy you guys are going to feel we'll do another bit of energy work as well after this, but I want to do this. You have a special guest that wanted to share some things, and I think the energy coming from her transformation is going to activate some energy in the people listening, and possibility. Can we...? Is she still on? Can we bring her on?

Ann: Ronelle, are you there?

Ronelle: Yes I am.

Ann: Everybody, this is Ronelle, and Ronelle... well, I'll let her tell it in her words, but, Ronelle, what happened when you joined the first 21 days? How long did you put it off?

Ronelle: I put it off for about a year.

Darius: Wow.

Ronelle: I would get the emails. I actually would listen... you know, I would join... I'm on Darius's email. I'd listen to speakers and, you know, you would always send out the emails about the 21 days – because I'm a member of both. And I'd always go to hit the button and then I'd come up with an excuse – oh, I've got to pay daycare or my car broke down. I was so reluctant. And I would be so disappointed but I would also say to myself: 'Okay, when I do finally get to hit that's button it's going to be life-changing,' – which was a subtle thought in the back of my mind - and I put off for like eight months.

Then finally I hit the Add to Cart - *schoom* - it went off and I felt this lightness. I felt this lightness. And I thought: 'That's really true. Something really transformational is going to happen.' So I started to get a feeling, an energy the minute I hit the button – no joke.

So I went into the 21 days with no expectations pretty much. The first 21 days I had some major events happen, some major life-changing events. I don't know if you want me to go into detail about it...

Ann: Well, yeah... What Ronelle did is she had... Her best friend, her mentor and teacher, suddenly up and died.

Darius: Oh.

Ann: And what happened is that she... Well, this is the magic, Ronelle. You can tell... The magic, Ronelle, for her that she had no reaction; she was fine.

Darius: What happened, Ronelle? Tell us.

Ronelle: Yeah. Actually it was the day that I had joined the 21 days and I got a phone call that my mentor, my best friend, my teacher, had an aneurism and... you know, had a brain aneurism. And my first thought was: 'Oh, this is going to completely take me off focus...' It was simultaneously... I was like: well, the 21 days. And I thought: 'Okay...'

So I was devastated, I was off kilter, I was off track, but I felt like this subtle energy. And the other part of my brain that argues was like: 'Okay, what is wrong with you?'

So I started the 21 days. I was participating, reading the emails, going through it. And about a week later, and I sent an Ann an email because I was like: I'm okay. It was this understanding. Under normal circumstances, the way I react, I would have been on the floor, would have been devastated. I would have had a hard time functioning because it was such an impact on my life.

It was like this *a-ha!* I was like: I'm okay... with my participation in the 21 days. I want to convey the profoundness of this because it was very profound. You know, where you developed your spirituality, the person you went to, just – *poof!* And I had an understanding and a peace. That's the good word. I had a *peace*.

And in my head my other brain is going: why are you okay with this? Why does this feel alright and peaceful and everything in its place and guided...? An anchor. That was the word. It was like an anchor, you know, of such a connection of peace.

It was so huge. So I sent Ann an email not thinking much of it, but it was my experience, you know, and it just grew and grew and grew, because, you know, when you lose somebody it's just not a one-time event. It just lingers and lingers. But I was okay. And to this day, you know... I talk to her husband and we speak with the friends and it was like peace. It was peaceful. Peaceful, happiness and understanding, which is so on the contrary to what I would normally go through.

Darius: Wow.

Ronelle: So that was just very profound for me.

Darius: Wow.

Ronelle: And then the second month I was going through some things and now... I have a son who was born with many, many birth defects; had many, many surgeries, and there was always this nagging future when it's your children, that something that you can't do anything about that... He's nine now. Well, he was incontinent. You know, he'd have accidents and... And I was just convinced. You know when you try everything for your children. And I was just going to throw in the towel, because school was starting, that he was incontinent.

So I'm going through the second month of the 21 days and my son walks in and he's got on a pair of underwear. And I'm like: 'What are you doing?' He's like: 'I'm going to wear underwear now.' And in the back of my head I'm like: 'Oh, okay... Alright, I'll be supportive of you and...' – you know, because your heart's breaking. And it's been four weeks now and he wears underwear, he goes to the bathroom. And I'm talking this is... You know, if this was the only thing that happened, I'd be the happiest person on earth, but it's not the only thing that happened, you know.

Ann: When we get... Go ahead. You go ahead.

Ronelle: It was a miracle. I mean, miracle is not even a good enough word of the profound... Here I thought that my child, that I could do nothing for, who I thought was going to be incontinent the rest of the life, out of the blue... It was like – *boom!* – he walks out – *boop!* – that situation was over with – healed.

Darius: Oh my gosh.

Ronelle: It was so life-changing, because, you know, I was like... I was in tears. I could still be in tears every time I talk about the story because it was just huge. Sorry I'm getting emotional, but it was just like miraculous.

Darius: Wow.

Ronelle: Yeah.

Darius: Why do you think it helped you when other things maybe didn't or, you know, things were kind of stuck? What do you feel intuitively? Because you know the answer. What did it? Why?

Ronelle: Yeah, intuitively it was God. It was like God, you know. There are some things that you just cannot possibly do on your own, you know – and you know it.

Darius: Yeah, I know it.

Ronelle: And that was miraculous. That was the hand of God, because surgeons couldn't fix it, specialists couldn't fix it..., you know.

Ann: And this is something that happens in the 21 days of healing and prayer, everybody, is that you get a gift. But more importantly is that families get healed - whole families get healed - because of all the ancestral work. We're so used to getting testimonials

where families get healed. And Ronelle will talk about how her whole relationship with her husband changed.

Darius: Oh, really?

Ann: And her relationship with money changed. She really was so frustrated about making money and she's not anymore. So Ronelle, how's your husband...? We haven't talked about this but how's your...?

Ronelle: Oh, just getting better and better. It's getting better and better and better. I've been married for 14 years. You know, you have your stuff. Anyone can relate to that. And I just kind of resigned... Like, okay, it's your personality, that's mine. Alright, this is it.

But some miraculous character traits changed on both our parts and it was like out of the blue. It was literally out of the blue and I'm like: this is strange. You know, when something completely different happens you're thinking: okay, maybe that was an accident.

It kept happening and happening. And we're communicating better. We talk. The feeling level's up. And this is, I'm telling you, something that I just didn't think was going to happen. You know, you always have it in the back of you mind: I'd really like my relationship to be more passionate, and communication better... And it did, without me realizing it. It's always after the fact. You know, a couple of days after I'm like: oh, this is no coincidence. You know that I mean?

So that was phenomenal. And in conjunction with that, you know, I've been working on a business for the last two years and literally for the last two years it's been stagnant. I've had it going; I've had no paying clients.

The work that's incorporated in the 21 days – and you're very aware of what the work will be through the emails and the calls. It's like all of a sudden I get a call. After two years of dormant activity I get a call. A client called. If you could have seen the thought bubble in the back of my head, I'm going: 'Oh my God, oh my God, oh my God, someone's actually calling me.' And I got three clients in two days.

Darius: Yeah, that's odd. I mean, I shouldn't use that word but it is really outside of the norm because you'd been stagnant in this business for so long.

Ronelle: And not through lack of trying. I tried. I do some marketing, put my stuff out. I'm really trying here. And to have someone call me out of the blue, you know... And if you could have just read my thoughts, it was like a comic strip. I'm jumping up and down going: 'Oh my God, someone's going to pay me. I'm getting clients. I'm having a service.' And that I could not do myself. I can't tell you.

And I think the work with the foundation and the... You know, it's not always like: oh, I want this much money through my business. It's the foundation of actually what's in you about your beliefs about yourself and what you need to be healed. And I'm really big on the lineage, you know. There is no question in my mind. These huge changes can be nothing but the hand of God.

Darius: Yeah. You know, it feels to me kind of, Ann, like what we're talking about when you said like you're enabling things to come through, it's almost like you're enabling energies to reach people; that maybe these energies have been trying to reach them for a while.

This *is* the higher energy we're always talking about. This *is* the life flow, the possibility that we all know is there, but some people, many of us – and myself included - we get so stuck in that low vibration. We get that density in our lives that we can't see past it. And you're just for the 21 days, or even just for this call, moving that for people, letting them open up some space, and then it's like – *wham!* – stuff starts happening. But that stuff's trying to reach them already. It's trying to reach them every day. It's just we have this wall of density keeping it from reaching us.

Ann: It is. Well, I ask very specifically for things to happen, and what happens is that not only do people healed themselves and they get just miracles in their lives, but what also happens is their loved ones get healed, their family gets healed, because of doing the lineage work and the past lifetime work.

So when you're a member of the 21 days of healing and prayer you're not only healing yourself, you're healing many, many others. And the miracles that happen... And people get... for the health... I mean, Ronelle is one of those people that could eat chocolate cake all day long and not gain an ounce. What happened with Ronelle and many, many other people is that now people are starting to eat fruits and vegetables who never ate fruits and vegetables before, who never would think about eating fruits and vegetables.

There's a wonderful... from Christine. She says: 'This is the first time in my life that I actually really love and enjoy and crave healthy food over a nice dessert, for instance. Fast food makes me shrug. I have stopped drinking alcohol too and am at my ideal weight. Instead of salivating at the bakery window I find myself salivating at the abundance of fresh and colorful vegetables and fruit. Apart from bananas I used to eat fruit as though it was a punishment.'

Darius: Yeah, yeah.

Ann: As they go through the 21 days of healing and prayer they automatically... They're not forcing it, Darius. They're not making themselves do this - like I *should* do it. You know the shoulds? - I *should* go and drink a green smoothie. They're doing it because they want to and they don't want to eat the sweets anymore. We have more testimonials with people's sweet cravings going away. They no longer crave sweets anymore. And Ronelle, you're one of them.

Ronelle: Yeah, I'm definitely one of them. My sweet cravings went out the window and I don't have to worry about what I eat. It doesn't matter if I eat a donut or whatever. I don't have no issue with that. But all of a sudden I was like: 'Oh, I want to have a salad. Hey, let's make a green smoothie. That sounds good.' Not because I thought about it or had some conscious health turnaround. I craved it. And I thought: 'Well, this is weird. There's chocolate brownie sitting there and I want a smoothie.' And it was just natural. Matter-of-factly that was my craving.

Darius: Yeah, it's almost like I think you're vibrating at a highest resonance when these blocks and challenges are removed and these new beliefs are installed, and then things that vibrate at that higher resonance are naturally more attractive or come into your field without resistance, you know. The living of foods become something that, you know, resonates more with that higher vibration that you're putting off. Having more abundance is something that is a high vibration of expansion and possibility. That's resonating. Better relationships...

I mean, to me it makes a lot of sense, but I want to pull that together for people because that's really what's happening. It's not just one thing about food or relationships. There's high energy and low energy, and when you remove the blocks to the higher abundant energy it comes in many different forms.

Ronelle: It's such a broad spectrum.

Ann: And most of the things that we see is people's diets change. People go through... like Ronelle said, her best friend and teacher died. They go through traumatic divorces. They're in the middle of losing their jobs when they join. They're in the middle of really tremendous things. And guess what? They're fine. They're happy.

And this is something that the 21 days really delivers. There's two things when they've interviewed people over the years. You know, the two things people want the most is they want to be happy and they want to be at peace.

Darius: Right.

Ann: And that's what happens in the 21 days of prayer across the board. Not only are you happy and at peace but this happens to your relatives and your friends too. It's amazing how the testimonials that we get in from people... People telling us how they're so happy and so at peace.

I just had a wonderful lady who just emailed me because of something that I had connected her to that changed... a doctor friend of mine who changed her granddaughter's life forever, and she said: 'Ann, I am now in the 21 days of prayer forever, because I am so happy.' No matter what's going on in her life she is so happy.

So what happens when you're in this program is... we're not discreating. The only time I did some discreating... Every time you're in the 21 days, every day I ask God to discreate all your negative thoughts. Every negative thought you have for the next 24 hours get discreated and so you don't have any negative...

Darius: Discreated.

Ann: And they do get discreated. And so you get them discreated. For 21 days you really don't have anything, because they get discreated. So that is pretty marvelous.

And you get nine different recordings. Nine different recordings of the healing work which you just experienced, and one of them, Darius, everybody... Have you had a lot of people that have been concerned about negative energies and how they're impacted by negative energies?

Darius: Yes. Absolutely.

Ann: Okay. There's one of the recording that they get is called the Shield Recording and people have raved about this recording. I have a rheumatologist who's an MD and she raves... I mean, so many people rave about this recording, because it puts a shield around you.

Cher wrote. She says: 'It's only been a matter of a few weeks but for me everything is changing so fast.' She said: 'I must thank you again and again for the shield. It is so powerful. As I use it each day, other people's negative emotions or thoughts roll off me like water off a duck's back.'

And that's what happens. The Shield Recording is one of the nine recordings that you get. If you use it... And I purposely make all these recordings short, because you don't want to hear me talk; you want to have the healing work. And so when you listen to these... it's only like 2 minutes and 15 seconds long. So when you listen to this Shield Recording every day, what happens is that you could be around negative people and it doesn't bother you at all. And Ronelle, you've had that experience, haven't you?

Ronelle: Yeah, I have it all the... Yeah, it doesn't even affect you. It's a nonissue. You could walk into a room where everybody's complaining or there's just a lot of people and a lot of frequencies and you're fine. You're in the same place of peace.

Ann: Thank you, Ronelle. You get these nine recordings. You get nine different recordings with the 21 days of healing and prayer and you get three calls, three calls with me. And one of those calls – usually the second call – I teach you a way to effectively pray. And we've been getting all kinds of people just loving this – the Surrender Prayer, as I call it.

I teach you how to do a way of prayer that is really effective. Like one lady wrote in. She said her partner died and it's been three years. The estate still hadn't been settled and she really had needed the money. And she used the Surrender Prayer and she said she's at peace with it now. It doesn't bother her a bit.

So things like that. I give you some tools – a lot of tools – during those three calls. And the whole thing... And you are always kept in the loop. You know everything that happens because you get an email from me every day telling you exactly what happened, which is really important.

So you get 2,500 new beliefs. You're going to get the specific beliefs that help you with your money, your intuition and your health, because you really can't have really good health and really good wealth without really strong intuition and following your intuition. And people's intuition has just gone to the moon. They really trust it so much more. Because what I aim to have on the 21 days of healing and prayer is you to have a much closer relationship with God. You and the divine are one. I mean, that's the capital T truth. But to feel that real close relationship with the divine, to feel that really close relationship, and to have health, to have the beliefs that draw really good health to you. Because what you believe you create.

Darius: Yeah.

Ann: There's tons of books out there – all kinds of books – that will tell you that.

Darius: Yes.

Ann: So we'll change your beliefs, but it's very physical... Actually change them. Actually God will change them. I won't change them; God will change them, and you'll actually feel something different happening. You can actually feel it.

Well, I have to tell you. When I ask God to do the 120 beliefs that empower you to no longer procrastinate, we have more people write in and say they started projects that they put off forever and they're doing the projects. Just things like that. Because they look at the daily email and they go: 'Oh my God, that's exactly what happened. I'm now doing these projects that I put off.' And so they let us know.

And forgiveness. One lady... There's about four or five pieces of work that go on every day, but one of the pieces was that you forgive yourself and others. And this lady just was in the shower the next day and she just felt that she easily and effortlessly really forgave herself and forgave her parents; that she forgave herself.

And so there's all kinds of miracles that take place and, you know, all you have to do is listen to some of these recordings. You can attend the calls. You can listen to them as a recording, because we have them as a recording, and it's really effortless on your part, because God's working on you 24 hours a day. You don't call in. You don't talk to me. You don't have to be anywhere.

And what I know that Darius would like to do is perhaps do another piece of empowerment work for you. God will do a special piece of work for you. And Darius, do you have any idea what you'd like it to be on?

Darius: I do. What I feel coming in to me is this idea, this energy of empowerment is to help people to be empowered that no matter what they have inside of them the ability to choose their life and their destiny, that they have this great power in them. And I want them to really connect to that. And I think to me that's what empowerment is. If you even look at the word it's connection to that.

So let's do that so they can start to open out more of that empowerment to make decisions, to know, to be and to experience everything that they deserve to experience.

Ann: Alright. And to make a good decision, in order to have that part of it... And you're talking about making good decisions, right?

Darius: Yeah.

Ann: They have the empowerment to...

Darius: Yeah.

Ann: How about if you have the wisdom and discernment to make good decisions?

Darius: Okay.

Ann: Because that's what... Really wisdom and discernment is really important. What you're going to find after you do this piece is that you will make decisions. You'll have the wisdom and discernment to make good decisions. And this is like an upload of a tremendous amount of information when you have the wisdom and discernment. So let me show you what I mean.

Thank you, God. Thank you, God. I ask God to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all that empowers you to have the wisdom and discernment, the wisdom and discernment that you need to make good decisions and/or something even better that is God's will for you and your highest and best good and the highest and best good of all. I ask God to create that consciousness for you now and I ask God to take that consciousness and program and imprint it in your entire consciousness in the physical and the etheric permanently with that consciousness now.

I ask God once again to create a consciousness for you that is God's will for you and your highest and best good and the highest and best good of all that empowers you to have the wisdom and discernment to make really good decisions and/or something even better that is God's will for you and your highest and best good and the highest best of good of all and I ask God to create that consciousness for you now and I ask God to take that consciousness and program and imprint that consciousness that you got from your mother and father in the physical and the etheric permanently with that consciousness now.

Thank you, God. I ask God to create a consciousness for you once again that empowers you to have the wisdom and discernment to really make really good decisions and/or something even better that is God's will for you and your highest and best good and the highest and best good of all and I ask God to create that consciousness for you now and I ask God to take that consciousness and program and imprint every one of your ancestors every generation going back 10 generations permanently with that consciousness now.

And thank you God. I ask God to miraculously heal the negative charges on all negative thoughts and memories no matter where you have them that would keep you from using that wisdom and discernment to make those really wise decisions and/or something even better. So thank you, God. I ask God to miraculously heal the negative charges on all those negative thoughts and memories that you have that keep you from making those really wise decisions, and I ask God to miraculously heal all the negative charges on all negative thoughts and memories no matter where they are starting right now.

There you go. That way God will heal those negative charges on all those negative thoughts and memories and let you now have this wisdom and discernment. To me wisdom and discernment is that pearl without any price, because if you don't have wisdom and discernment... Most people, because they've made so many mistakes in their life, they finally get it as you get older. You get wiser because you've made so many mistakes and you learn from them. So you get wisdom and discernment. This way you don't have to do that. You just automatically get the wisdom and discernment.

So that's what you've got: the wisdom and discernment to make good decisions. And how's that, Darius?

Darius: It feels amazing. It feels like... You know, to me, the way I feel it energetically is at my core. I feel things like rooted now. There's a good feeling of possibility for me. There's a good feeling of being excited about the future and passionate and openness. But I'm not just floating out there. And I think this is what a lot of people are feeling. But there's a root in the core and it's like okay, now I have that discernment, I have that empowerment, I have that knowing from my intuitive self.

I love it, Ann. You did it again. I mean, in the span of like an hour you did some amazing very powerful things. Just amazing.

I know that the 21 days is something you believe in really powerfully. I know it's something where you want to bring people in and love them for 21 days and give them this energy for 21 days and help them heal for 21 days, and I know for you it's more about bringing them close into a different energetic space so they can be changed forever. In your own words... I'm going to tell them where this is and when it's starting, but in your own words what would you say about the 21 days? Why is it so important to you and your work and your heart?

Ann: Because there's nothing out there like it. There is nothing. It will miraculously change your life in such a profound way in such a short period of time. Many people that are in the 21 days of healing and prayer they're not newbies to trying to change their lives, and they're blown away by how effective it is in healing fears and worries and how you come away ready to do and to create the life of your dreams. You really do. You come away really feeling empowered and really change.

We have people 20 years to... we have a lady 79 in a nursing home in it. We have people of all ages and they are just blown away by the affect.

If I do something I want it to be effective. I want the change. I want the transformation. And this is what we promise you is that transformation. In fact we promise it so much that we give you a 60-day money-back guarantee.

Darius: Okay, for people that are new, that sounds... They may not have gotten that. The program is 21 days, so how do you do 60-day money-back guarantee? So they do the program and then they could wait like... I mean, that's almost like a month-and-a-half almost or a month and two weeks. If they don't like it even after it's done, they have a month-and-a-half to sit on it and see if things get better and then they can get their investment back?

Ann: Yes. It's two months from the day that you join.

Darius: Wow.

Ann: It's two months from the day you join. So you have two months to get a money-back guarantee. I mean, the program... the last day to sign up is September 27th at 9 AM.

Darius: Okay.

Ann: But if I start on September 28th... September 28th...

Darius: Okay.

Ann: It's 21 days that you get an email every day. But yes, you get a money-back guarantee. If you don't feel like your life has been changed then there's that 60-day money-back guarantee. That's how sure we are that you're going to get a transformation.

Darius: I'm going to tell people where to go, because it's a new start, it's a new program, it's a new season, and so it is all new, and Ann will be doing some things she never done before, because the energy's always unique and different. It's at youwealthrevolution.com/annnew.

Ann, I want to ask you something really quick. We talked privately before we started the call and you talked about somebody that you worked with, a very, very powerful dowser who actually was reading your energy and saw it actually changing and becoming more expansive. Tell me about that what that means in this new season and for this new 21 days.

Ann: Well, recently my work... the effectiveness of the healing work went up 30% because the effectiveness of the gift that I have to call on God went up 30%. In the last month it went up 10%. And when this effectiveness goes up the effectiveness of the work that you get goes up. Also your consciousness also goes up because I also have dowsed that out. And the consciousness actually of the whole group goes up significantly on David Hawkins's map of consciousness, if anybody's familiar with that. But it's incredible.

Darius: Wow. So your work's 30% stronger you said in the last few months. So this one is going to be stronger than ever before. And it's at youwealthrevolution.com/annnew.

Let's go through kind of what's on here. I know we're getting close to time but I want to talk about what's in here, what's different, what people may want to look at.

3,700 people, you say, Ann, have experienced miracles and there are more than 100 testimonials at the bottom of the page. Oh my gosh. Just for a good read for possibility and knowing it's possible just take a look at all these.

Tell me about what's on here, because there's a lot. You have stories from Jill and Don and another person, Gabi. You have a huge amount of the beliefs. 120 new beliefs to empower to be grateful, 120 new beliefs for more joy, 120 new beliefs that you're going to empower and install in people for kindness to yourself and others. I mean, that is huge. 120 new beliefs to empower you with unshakeable faith, 120 new beliefs for healthy relationships, 120 beliefs that God knows you, 120 positive beliefs that God loves you, that you will be empowered for financial abundance.

But you also have, Ann, much more. And I know I'm running because there's so much here that I just keep going and going. You have 10 bonuses, three private calls... Tell me about these bonuses. Maybe we can just go through them quickly.

This is a huge amount of stuff.

Ann: Oh, this is a huge amount of stuff. I want to tell you about the bonuses. The first bonus is the three live calls – rather the three private calls with me, because nobody else has done them.

Darius: Okay.

Ann: Then there's the wonderful collection of recordings and it empowers you to know that you're wonderful, that your mother thinks you're wonderful, that your father thinks you're wonderful. And then there's the passion package that really empowers you to be passionate in so many different ways and it adds rocket fuel to your dreams. Then there's another set of recordings. Happiness... that empowers you to be happy in so many different ways, and it eliminates unhappiness and it replacing a new empowering belief that you... it empowers you to be a much happier person. And like the program does that too.

And the miracles collection. In fact, Ronelle said that she had just listened to this miracles recording today. And it empowers you to have miracles in so many different ways. It's incredible.

And then the special protective shield which I've already talked about, and the wisdom and discernment. This gives you wisdom and discernment in about eight different ways and this is really powerful. This is all the healing work that you're going to receive from God.

And I call this your own personal recording. People like to listen... The reason I call it this is people like to listen to it every day. It says: 'This incredible bonus is a special healing recording made just for you. This brand new recording,' - well, it's not brand new – 'this brand new recording will empower you to not only know that you deserve to have good things happen in your life but also expect those good things to happen all the time.'

So when people listen to that every day it seems to really help them to have good things happen in their life. They just have the work going on too.

And the ninth bonus is *Skyrocket Your Success With Optimism* – 'This collection of recordings skyrockets your success by empowering you with the optimism about your life, your future, specifically your financial future. And it eliminates lots of pessimism.'

Then the last one is to be able to manifest money, and it's part of a collection that includes four pieces of healing work that will make it so much easier for you to manifest money.

Now, if you chose not to listen to these, you would still get a powerful affect from the healing, because it really... The powerful affect from the 21 days and listening to these recordings...

During the first call I give people a piece of work that empowers them to have the wisdom and discernment to know which recordings to listen to. And there's just pure

healing work. This is not me talking. And as you go through this you're going to find out that there are six different pieces of work that are done to empower you to... for money – to manifest money. There's six different pieces that empower you have excellent health and there's six different pieces that empower you to really trust your intuition. And those are really necessary for you to be successful at anything is to really have good intuition and trust your intuition.

And when you read the 100 testimonials at the bottom, these are people just like you and it's just incredible. Also there's a lady on here – you just talked about her – Gabi. She interviewed about 42 healers and she says in her own words there – she can tell you in her own words – that 'a lot of the healers out there,' she said, 'have been through this program and have gained a lot from coming through...'

Darius: Yeah.

Ann: And you can hear a wonderful recording from Gabi there. There are just so many different...

There's also one from Jennifer McLean. When I first was guided to do this work I called Jennifer up and I said: 'Would you be part of my group, my first group?' I called Jennifer up and she said: 'Sure.' And I said: 'Would you take a baseline of where you are with the parents?' – she had issues with her parents. So she went out and she had this laundry list. And this is in her testimonial, by the way. She had this laundry list of issues with her parents. And I called her up a week later because I knew she was going to go to... – because I'm asking everybody how's it working. I said: 'How do you feel about your parents?' She goes: 'Ha. What was I so upset about?'

Darius: Oh my gosh! And that's somebody who's done a lot of work and who also has been connected to a tremendous amount of healers. You've done work on me, you've done work on Jennifer, you've done work on so many others. I mean, that's very, very cool. And very heartfelt, because I know where you come from; just wanting people to be their best selves. And get that help, you know. You're not alone. If you need this help, if you want it, it's certainly here – through this call or going deeper. You know, we're all here for you. It's at youwealthrevolution.com/annnew

Really quick I want to let people know kind of how you've done the investment in this. It's \$247 if they want to buy it right now or there's payments, right? Two payments of \$130?

Ann: That's correct.

Darius: Fantastic. Okay.

Ann: So \$130. And for all the money that people have spent on personal growth – I being one of them – this is a bargain, I think.

Darius: Yeah.

Ann: This is a bargain. And you will be blown away by the changes within you. I was telling you it's just... You'll add to just the thousands and thousands and thousands

of people whose lives have been transformed miraculously.

I can hardly wait to work with you. I mean, this is going to be so much fun. It'll be so much fun emailing you every day. It's almost like Christmas. You get to open up and see how God's been working on you for the last 24 hours and what God's been doing. So you can really... You say: 'Well, no wonder I felt this. No wonder I felt that.' And it doesn't matter where you are around the world, you will receive an amazing transformation.

Darius: I'm going to read some of these that you had sent me and then I know people... It's getting late. But I just want people to really get a feel for the energy that happened, because some people doing this 21 days... it's very cool. One person said: 'After close to 30 years of smoking cigarettes I no longer smoke them. I'd been wanting to let it go but knew there was something underneath it and that's the key, the root, that was using cigarettes to cover up.'

And then this person said: 'One day my body just wouldn't inhale the smoke anymore. It wouldn't go in at all and I would cough when I tried to inhale. This went on for two to three days and then I finally put the cigarettes out. I thought it was pretty silly to keep trying when God was making it so easy for me to let go. I'm so grateful it was that easy. Thank you again, dear Ann.'

Another person said: 'This was such a huge change in my life. When I did the 21 days of healing I got an amazing job.' After being redundant, I guess, or laid off or maybe stuck at the same level for 23 years this person got a \$15,000 increase in salary.

And another person: 'I had my first four-figure day,' – in their online business, I guess. She says: 'I woke up on the 25th to see more than \$1,500 waiting in my PayPal account.' Now, this person had a business and obviously had been putting effort forward, but things really opened up.

A lot of people with intuition. Diane said: 'My intuition has hugely increased in the last seven days. I am dead on with knowing who is calling or texting, for example. This allows me to trust my intuition more and more on bigger things.'

Another person said: 'After about eight days I was thinking I was going to be one of the very few people asking for a refund because I was not noticing changes. But at about the middle of the second week I saw things beginning to change. Probably one of the biggest things is really being open and responsive to my intuition, that small little voice inside of me guiding me. I've already made outward changes that I would never have expected.'

And, you know, you sent me in pages and pages.

The thing I want everyone to get is just that there are possibilities for you. There's a you inside that is waiting to come forward that the divine wants to reach and activate. And just listen to this and know that no matter what it's there for you and it's going to come out. We're going to help you get there, and no matter what you decide to do we want to love you and support you and nurture you, because I know in my heart there's much, much more waiting for you. Right, Ann?

- Ann: Absolutely. Much, much more. You'll be so thrilled. You'll be so excited because there's is so much more, Darius, you're right.
- Darius: Yeah. Well, Ann, any final words for people or any thoughts or anything that as we've been going through this that you're feeling coming up that people need to know?
- Ann: Just that I think the greatest investment that you can make is in making profound life changes that transcends anything that you've ever done before. And I feel like this is an opportunity that will change your life in such profound ways that it will leave you slack-jawed. Your testimonials... the people in this program leave me slack-jawed. I mean, it's incredible what happens. And I really want you to have the life of your dreams. So come to the 21 days of healing and prayer. Let us make that a reality for you.
- Darius: Absolutely. I love it. Everyone, it's at youwealthrevolution.com/annnew. And I want to thank everybody. Ronelle, if you're still on, anything you feel for people that maybe were in your shoes or are in your shoes right now? What are some thoughts you have coming up?
- Ronelle: The big thought that I have that I'd love to stress is with this program you see results that are tailored to you. You know, a lot of things that people might have done... I'm sure there's a lot of old-timers who go through lots of programs and have worked years and years on self-development. But the results are immediate. It's 21 days and you get results just like a big flashing light. And to see that happen in your life... And you get more anchored – like wow, it happened for me!
- Darius: Right.
- Ronelle: The one thing I want to drive home is it's fabulous. You feel better, your life gets better and you get results.
- Darius: Yeah. I love it. I love it. Well, thank you, everybody, and thank you for being here at the You Wealth Revolution connecting and sharing with us and being here. We know that there is something great. There's always a great reason why you're here. Make note of what you pulled out of today; what's different. You know, let us know. Share that with us. What's changed? What's different? What's the message that the divine's been trying to reach you through Ann and through Ronelle today? What is it that came through? And what is it that maybe is the next step for you? Maybe just being more present or maybe going deeper into the 21 days like so many other people have. Or maybe just loving yourself more today. Whatever it is take action and do it, because God can send you the signals but I always believe that it's our hands and our heart and our motion lets God do the work down here in the physical. And Ronelle's an example of that, I'm an example of that and so many others.
- Ann, thank you so much for being here. Quick question I wanted to ask you before we go. It just came into my mind. You have one interesting thing about your classes. You have probably one of the largest – or *the* largest I've ever seen – number of people that actually retake the class and keep coming back to get more energy or expand the energy. How many people have you had actually retake this because

they want more of it and why do they do that?

Ann: Well over 1,000. Maybe 1,500. The reason they do that is something different. Because the program doesn't stay static and they get something different. They wouldn't miss it. I've done 16 of these and I've had people who have done it 16 times in a row, because they get something out of it every time. Every time. Their life continually... just when they think they can't get any better they go in the 21 days of healing and prayer and it gets better. Because after you join it the first time you get a big discount the second time, and from then on, after you...

And it's so inexpensive, quite honestly, Darius. It's so inexpensive just to have these miracles continue in your life. I don't know why... you know, they just wouldn't dream of missing it. Because not only do they see it in their life but they see it for their family and their friends. They see all these miracles happening around them and they feel so wonderful that not only they are changing but they're really helping so many others. So that's why they keep signing up.

Darius: Wow. Amazing.

Ann: I mean, we change the subjects. Every time you do like I call the bedrock beliefs... which they don't really change but God knows you. God knows exactly what beliefs you have and God always creates something different for you each time. And they wouldn't dream of missing it.

Darius: Amazing.
