**Interview with Stacey Mayo**

*Stacey Mayo*

Creator of The Sentelligent  
Medical Intuitive Process  
and Training Program

**The 7 Sentelligent Keys for a Happy,  
Healthy and Authentic Life**

Darius: Hello and welcome everyone. This is Darius Barazandeh. You're tuning in to You Wealth Revolution. I am so excited today. We are going to be talking about some very critical and important things that you need to know, to help you to really unlock the keys to a happy, healthy and authentic life.

We are going to be talking about the seven Sentelligent keys to a happy, energetic and authentic life. And just for those of you that have tuned in to the You Wealth Revolution for many years and many months. This is the first time we've actually had a medical intuitive on the line with our group.

So if you are here and you really are wanting to plug in. You're really wanting to be possibly be one of the people that may get a chance to speak with our guest Stacey Mayo, then definitely you want to be on to the very end.

We are also going to be doing some different exercises throughout and some clearing. So I'm going to let Stacey decide when those happen. But know those are going to be happening and there could be more than one. And we really want to plug you in to this incredible, incredible information.

Now here is what I would love for you to do. First of all, go to [www.youwealthrevolution.com/now](http://www.youwealthrevolution.com/now) , and share this with friends and family because, there could be some things that will change the lives of the people that you love. And even people that you don't even know. People on your Facebook, your friends of people on Facebook. One ripple in the tiny pond will cast off and create huge waves in the ocean of people on this planet, so we can live a more happy, healthy and authentic life.

And we are going to discover what it means to be Sentelligent, and the seven Sentelligent keys to living a happy, healthy and authentic life. And we'll be understanding exactly how you can understand and determine, what is underneath the physical symptoms in your body. We're going to be doing group vibrational processes and much, much more. So I want to introduce our guest and I want to get started, because I already have people writing in, saying 'Darius, let's just get started as fast as possible, and I want to do that.'

Our guest, Stacey Mayo, founded the Center for Balanced Living way back in 1995, and is the creator of the Sentelligent Solution. She is a Medical Intuitive. She's also and Intuitive Consultant and teaches people to be Sentelligent Medical Intuitives, and how to understand the precise language of your body and your symptoms. She's the creator of the CASH Grid and please write this down. This stands for Crystalline Activated Sentelligent Healing Grid. Also, Energetic Dental Cleanings, to preventative health care grid. The one minute meditation and the 'Dream Movie.'

Stacey has also appeared on CBS. She's been featured in Forbes, Newsday, The Wall Street Journal, Atlanta Sports and Fitness and also even Women's Day. She's the author of the award winning book, 'I can't believe I get paid to do this!' And she was also named Georgia's author of the year for Best Self-Help Book. As an Intuitive Consultant, she works with a limited number of private clients to empower them, to create a prosperous partnership with God, and live the life of their dreams.

So we're going to be sharing with Stacey. I want to hear what your questions are. You can also send it to us at [www.youwealthrevolution.com/now](http://www.youwealthrevolution.com/now). And boy, we've got a ton of questions already coming in. Stacey, welcome to the You Wealth Revolution. I'm so glad to have you.

Stacey: Thank you Darius. I am very, very excited to be here, and just really feel into the energy of the group and the curiosity. There is just so much curiosity about what's going to be explained and uncovered here today. And that's a great space to be and remain curious.

Darius: I love it. Well, let's start with the first things. We're already starting to get questions come in, and that is, 'What is Sentelligence?'

Stacey: Well Sentelligent is a word that I coined. And it stands for our highly functioning and intelligent sensory system, which includes all five of our senses, our feelings and our intuition, including our connection to source. So it includes all of those things and all of us were born Sentelligent, but we all need to really sharpen our Sentelligence because it's so easy, to ignore what it is trying to tell us, or not even understand.

It's also about listening to the body, and I'm going to explain a lot about that, because our body talks to us all the time, and we don't know what it's saying.

Darius: Now this isn't just about understanding the body or understanding energy. I mean, you actually are a Sentelligent Medical Intuitive. What does that mean for the listeners here? And how did you actually come onto this journey as a Medical Intuitive?

Stacey: Well, a Sentelligent Medical Intuitive is one who...part of what we do is really listen to the language of the symptoms that our showing in a person, whether they are emotional or physical or, on whatever level they are. To better understand what's at the root. What's underneath the symptoms that show up in your life and in your body?

And how I became...well it also includes a lot more than that, including doing a full intuitive medical intuitive body scan, which allows you to see everything that's related. Pretty much everything that's related to the symptoms that show up.

And how I became one? It really just was a divine unfolding in working with initially my coaching clients. I found myself really listening to the language and making, just... innately making the connection between the language they were using and what was going on with them. And between their health issues and then my own popping up, it became just more of a unfolding of really understanding, what was underneath physical health symptoms.

And before long, I mean every... I was just naturally combining that with healing processes I had co-created, and before long I was just. All of a sudden, one day I woke up and I said, "I am a medical Intuitive." "I am already doing the work of a Medical Intuitive."

And it was such a divine unfolding, Darius. I found that once I really claimed it, people would just show up in my life saying, 'I've always wanted to be a Medical Intuitive.' And I consciously had not had that you know, happening. And then at one point I thought well, it would be good to write a 'Dear Stacey' column or 'Dear Doctor Mayo' column, quote and quote. Since as my last name is Mayo although I can't call myself a doctor.

And sure enough, I mean, Sedona Journals of Immersions called me up one day to see if they could an excerpt from my book. And low and behold they have been looking for Medical Intuitive to write a column for their magazine. And I have been doing that for almost two years now. And it's just been kind of that kind of 'meant to be' unfolding.

Darius: Wow, wow. I want share... I want to ask you about some different things people have experienced through your work. I want to share one thing that came across our office. My brain was foggy. I could not think straight. I felt dumb. I thought my brain was deteriorating, and it was. After putting issues relating to this in the healing grid, the CASH Grid, I felt some improvement, and by the third day I was much sharper. As an added bonus, my short term memory was significantly better, and now my cerebral cortex which was functioning at 78% is now at a 100%.

Another person: I've used many healing modalities, but the CASH Grid is one of my favorites. It's easy and fast to use. The shifts happen naturally and gently. This person used it for sugar cravings. For resolving past lives. Releasing layers. Getting less stressed. Another person used it for weight loss. Another person: for abundance. And this is...this is pretty amazing stuff, Stacey.

I mean, what are some of things that you've seen this be able to do for people?

Stacey: Well, we're jumping right into it. Well, I mean those are some great examples and the CASH Grid which is a Crystalline Activated Sentelligent Healing Grid. It's my way of really empowering people. Because I can't one on one help everybody in the world, right.

And so in order to ... you know...in order to....I just don't have the capacity to do that. And so its' really my way of empowering people and it has evolved so that the highest and most best healing modalities are in it. So that you don't have to know whether to use, white light, or vibrational density clearing or whatever. It's all in the grid and chosen for you. And, one thing...O God there's so many I could use.

One pops up. It can also be used with pets. So my daughter has a rescue dog. He's Shiatsu. His name is Ralphy and he came to us just a little messed. And we had no idea that he had cataracts. And we put his cataracts in the Grid. And low and behold it healed his cataracts.

Darius: Wow.

Stacey: And this was amazing. And you know cataract surgery it's just like you know something that we might not have even done.

Darius: Right.

Stacey: And we don't have to. So that was truly amazing. One of... A person that I worked with - Susan, she's a hair stylist, and she wanted to attract more clients. And we put it in the Grid for her and about a week later, literally her phone was ringing off the hook, with people who had been referred to her or found her one way or another; wanting to book appointments. And they were also buying product off the shelf like crazy, so she was making more passive income.

So it does such a variety of things. And that's what makes it so great, like well you might not have cataracts but you may want to attract something. And you may not have a health issues, but you may have relationship that needs mending, or want to attract your twin flame. And all of these things, all these things except we say, we say things that are, what' we'd call chronic. You know, we don't guarantee anything, but it's not especially meant for chronic health issues. So we want to say that

Darius: Okay. Okay.

Stacey: There's another example I give you because it also does dental work which is... one of the newer things it does. And one person who had a toothache. Her name is Gigi, and her dentist told her that she would need to get a root canal and it was going to cost her \$1100 dollars, and she chose to put that in a CASH Grid. And in the course of a few weeks, the pain was gone and she was told, she doesn't need a root canal anymore. And it saved her \$1100 dollars.

Darius: Wow, okay, so we've got this, we've got this thing we want to talk about, the CASH Grid. But I know I've kind of put the cart before the horse, so we're... going to maybe ... jump in and start talking about these seven Sentient living... Sentelligent living keys, and how we can begin to sharpen it? How we can begin to go down this journey? Maybe we should get started. And...and, what is the first key to Sentelligent living?

Stacey: Well we kind... you know the first key to Sentelligent, key for happy, healthy and authentic life. And the first one is about listening to your body and the words used to describe the symptoms. So let me give you an example, and you know our language really says a lot. So think about sore muscles. Let's say you have sore muscles. When you listen to the language, that means you are sore about something. And sore about having to 'muscle' through doing something.

And depending on whether the muscles that are sore are on the left side or the right side of your body. It means something different. Could be on both sides. But let's just say you have sore muscles on the left side of your body. Those are really sore. Well, in my 'frame of reference,' there's a lot of ways to look at left and right side of the body. As a Sentelligent Intuitive I look at it. The left side is about relationships and right side is about right career.

Darius: Okay.

Stacey: So just look at it that way with me for today. And so, so left side, perhaps you're sore about muscling through something to do with a relationship. Could be relationship with yourself, with a loved one, with spirit, you see.

Darius: Yes.

Stacey: And if it's on the right side it could be sore about having to muscle through about something your right career or your higher purpose.

Darius: Wow.

Stacey: Okay.

Darius: I like that. Well what's incredible to me is like it's actually, like now we can get these keys. I mean this is a big opening right now. Just in the beginning here, so we can get keys as to what it is that we may be dealing with, or that we need to adjust or change our perception on, or okay... very, very cool.

Stacey: Okay. So what I'd love to do, is talk to one of your listeners...

Darius: Okay.

Stacey: ... who might have maybe a moderate symptom. Let's not go for some real complicated thing, because it will confuse everybody. Someone who has a moderate symptom, and I can talk them through and into it for you. And listen to the language so you all can see how it's done with someone live. And then, we would do one or two... we would like to one physical and one...

Darius: Okay.

Stacey: ... related to mouth or teeth issues. And I'll explain that in a moment. So let's do one health issue first. Not mouth. I'll explain about the mouth in a moment. I call the mouth the gateway to authenticity. So let's take someone who has a moderate health issue, and I'll help guide you through a better understanding what's going on.

Darius: Okay. So first thing I'm going to do, is figure out who I got next. Okay then, so that's gone. So everyone if you have a health issue, hit star, two. I've lowered the hand because you know, we want to obey Stacey's request here. So moderate health issue hit star two. And we got a bunch now of people. Dozens and dozens now. Okay, so I'm going to start with, this persons right here. I've got a Harriett. She's in Las Vegas, 702 area code. Harriett are you there?

Harriett: Yes

Darius: Do you have moderate health issue for Stacey?

Harriett: Yeah. I've been experiencing a lot of stress which has affected my digestion.

Stacey: Okay.

Harriett: So I'm having trouble eating.

Stacey: Okay. Alright. Thanks Harriett. So now for the benefit of everybody, I'd like you to describe how does your digestion feels. When it feel that way? When it started? So give me a little more description. Is it short pains in your digestion or does it... your stomach gets bloated, or tell me more.

Harriett: It gurgles a lot. And when I eat something, I have a bad taste in my mouth. Burping. And it gurgles even when I don't eat. And it started a few weeks ago. I kind of

unconsciously was stressed out. I wasn't aware of how stressed I was about my financial situation. And it just got progressively worst. So then I stopped eating, which made me kind of weak, and you know just one thing after another until I really made myself ill for a few weeks.

Stacey: What do you mean, 'you stopped eating?'

Harriett: Well because when I eat, my stomach would bother me. So I wouldn't eat and then I would get kind of weak from not eating.

Stacey: Okay. Okay. And so when you say your stomach would bother you, I mean, it must bother you a lot, to want you to stop eating. So the pain was sharp, severe, just a bad taste?

Harriett: No, it wasn't pain. It was just the... just the gurgling and the burping and the bad taste in my mouth.

Stacey: So the gurgling loud, or kind of just low gurgling?

Harriett: It can be kind of loud at time.

Stacey: Okay. So your body is really talking to you. And so as we listen to that language. I paid attention to gurgling and burping, and like burping up something. Right. Gurgling like trying to get your attention. So low gurgle gets louder and louder, like really trying to talk to you.

And eating gives you... leaves you a bad taste in your mouth, so that one really stands out. Bad taste in your mouth. And then you were talking about financial stress.

Stacey: So Harriett, 'what leaves a bad taste in your mouth, other than food?' 'On a semantic level, what comes up for you?'

Harriett: Probably that I'm not able to provide for myself as well as I should be able to.

Stacey: Yeah. Okay. There you go. Exactly.

Harriett: So on some level you knew this had to do with finances. So you're intuitive enough, you realize the connection that you were stressed about your finances. And so you're right on the money. And so it leaves a bad taste in your mouth that you believe that you cannot provide from your family. And likelihood is that you're getting evidence of that. And it's like it makes you so sick, that you just say, well, "Let's just end it." "Let's just end this." Does that resonate?

Harriett: Yeah

Stacey: And so, that's how much it bothers you and that's like I'll just stop eating. Well you stop eating. Eventually you die. You transition.

And so it bothers you too that extent, a lot sub-consciously, that you'd rather not... you just can't digest the fact that you can't do this. It's just not acceptable to you.

Can you hear that? You can't digest the fact. It's not acceptable and it upsets your digestion so much that you don't want to eat. So this is a deep issue and I'm sensing

that it has been festering for a long, long time and has come to the surface. Does this resonate?

Harriett: Yeah.

Stacey: The important thing to know Harriett is, it feels like the truth and it's not. It's a deep, deep, deep, deep belief that goes back many, many, many lifetimes. And now I'm just pulling my intuitive hat on. Okay.

Harriett: Okay.

Stacey: And it goes back many lifetimes and it helps you feel incompetent and incapable. And clearing that up, there's patterns in place, there's charmers. It's in your genes, so to speak. That's how imbedded this is.

Harriett: Okay

Stacey: And so you need to be open to healing it. 'Can you hear that?'

Harriett: Yes. And I'm ready

Stacey: Good, good. So this is what needs to be healed. And, so use whatever methods call to you or a practitioner's or whatever. But that's what going on and just be open to it and know that it will take some time. But it can be done. I'm really been getting it can be...what has laid in for so, so long, for eons, can be undone and redone. Okay

Harriett: Okay. I appreciate that

Darius: Wow. So what she was feeling physically, was just way deeper and that is an amazing revelation. Because you know she could go the doctor, she could try to get this fixed and so much everything, and still the underlying root will be there. And would not remedied for healed, and you know sometimes I guess could show up worst. Right I mean sometimes it just gets louder. Like you're not listening to me. We're going to do something else.

Stacey: Absolutely. Our bodies will get louder. Our situations will happen and it gets louder, like. We're going to get your attention one way or another. And that's the challenge you know. It's because they get your attention but sometimes it's like. I don't know how to interpret you know what it is. So I'm not willing to slow down long enough to listen. You know and that's really what it's about for everyone. It's being willing to slow down long enough to listen. Listen to the words. And we are going to take everybody through an exercise in a minute on how to do this.

Darius: I wanted ask you Stacey. What is secret Number Two? Because I want to get through the seven I know we're going to end up getting through them. But I want to make sure people get the second secret. What is the second piece?

Stacey: Okay. The second piece is about substituting delicious foods for supplements whenever possible. So it's easy to pop pills, right. And some people are okay with it, and some people wish they didn't have to. And so what I'd love to tell people. You can easily find delicious substitutions for vitamins and such on the internet.

For example, B12 and things that provide B12s are tricky. Oysters, beef, clams and shrimp. And if you go on the internet and you put in, 'top food with B12... 10 top foods with B12. The internet will show you 10 top foods with vitamin A. So you can find delicious foods that you will enjoy eating that have a lot of what you need.

Darius: And the reason you bring this up, is why? Because when we stray away from natural foods, what's going on? And what's the risk and what's going to happen if we take too many supplements versus natural foods?

Stacey: Right. Right. It's first of all, it easier to assimilate naturally for most people. And second of all, it's really easy to take too much or overdose, so to speak on supplements, and homeopathic remedies, and this and that. And we... I get really passionate about this Darius. We read descriptions and... well we hear it on TV and the description says, well – "well if you're fatigued, and if you get headaches, and if you"... and we go, "that's me." 'Then I must need what is they're saying."

Well, it could be something totally different. And so it's very easy for us to mistake what our body actually needs. And if we take too much of what we don't need, our body needs to get of it. And so our body will do it is best to get rid of it. But that will actually tax your systems, which in the long run affect your health and well-being.

Darius: So that's part Number two. It's almost like getting us back to things that energetically are going to in balance and in alignment with our own body and how it works. So we can listen deeper. We can... we can get those messages and not have misinterpreting signals or chaos coming from some of these different, you know concocted, I guess supplements.

Stacey: Absolutely

Darius: Can we jump to secret Number Three? Or are we going too fast? I love this.

Stacey: No I think we'll come back around to the group exercise in a minute. I'll think of a way to do that, so it's fine. So secret Number Three. It's... it's the same kind of thing. It's really like. Ask question based... like instead of relying on a authority again. Because someone on TV or in a magazine says 'use this supplement if you have this symptom.' Ask questions of your doctor, of authority figures based on your own knowledge of your body.

For instance. If I got to a health practitioner or a doctor and they say, 'here take this.' They don't know much is right for my body. There is this general description. It says, 'take this many milligrams.' And that's right for everybody.

Darius: Right

And so, you may happen to know that you're sensitive and you usually use half the dosage of the doctor. So pay attention to that. You know, pay attention to what you know that your body does well with, and doesn't do well... you know trust your own knowing.

And muscle testing is also a good way to do this Kinesiology. And as part of the special offer that we'll talk about later. I actually give away a free guide on how to muscle test. So you know how much, and what's right for me. Other than relying on authority figures.

Darius: Yeah. I mean so much to this. I mean it's I start... I start feeling into this, is like we have this innate wisdom inside of us. I mean at some level, even Harriett knew that the thing that was causing this was much deeper than just a stomach ailment. There was something beyond that, that was calling her forward to solve or release that financial block and yet we shut it off. And part of this is, just really being present to the truth about what we're here to do and be, and learn from and love through. Right?

Stacey: Yes.

Darius: Wow. I love it. And what I love too is you know when we get these secrets and we understand these steps. We can not only change our lives, but we can be what we're called here to be. Okay, I'm going to...can we go to secret Number Four? Or do you want to take another caller?

Stacey: Well I'd like to do yeah, almost...and...what I'd like to do is take one more listener and then we'll do a group exercise. We'll have some...so let me talk about the mouth for a minute, as the gateway to authenticity.

So if you have stains on your teeth or your teeth are yellow. It actually is telling you something. If you have a toothache on a certain tooth. It is telling you something. If you clench your jaw, it is telling you something. If you have something going on with your gum, it is telling you something. If you have sensitive teeth, it is telling you something.

So, I'd like to go through that and we'll tie it in to...this is all about being authentic and we're going to do a vibrational clearing around, 'free to be me and authentic,' later on in the call. But let's give an example about what might be going on with your teeth or mouth.

So someone would like to raise their hand, who has something going on. Again it doesn't have to be major. They may just want to know what the stains mean, or anything at all that's going on your mouth.

Darius: Okay. So this has to be related to the mouth. So it's star two...

Stacey: Yeah. Mouth or teeth

Darius: Mouth or teeth. We've had a few people raise their hand, and actually, I un-raised you. So if you would just raise your hands. Do it again. I'm so sorry Kate. There you are. Okay. We got a bunch of people with mouth and teeth issue....oh this is incredible, I never would have thought that we would have so many. This is even more than the other one. So this authenticity and speaking through it. This is really, really important.

Okay, so we've got Melanie who is in 970 area code and she's in beautiful Durango, Colorado. Melanie are you there?

Melanie: I am thank you so much for taking my call. What I have, I have a few things going on. I have Tetracycline stains from childhood on my teeth. So they've always been there

basically. And I also have...you mentioned sensitive teeth for the last couple of years, that came out of nowhere.

Stacey: Okay. Thanks Melanie. So let's look at this. So Tetracycline stains since childhood. So since what age would you say?

Melanie: Probably since my teeth came in. I had pneumonia like six or seven times before I was six years old. So I was constantly on those antibiotics and stuff.

Stacey: Okay. So Melanie, are certain teeth stained, or are all your teeth stained?

Melanie: It's all of them. I do have them bonded now, but it was all of them.

Stacey: Okay. Okay, Okay, and so stains in general have to do with being reluctant, okay, to open up and be authentic, and speak your truth for afraid of your reputation being stained or tarnished. Okay. That's in general. And so if we look with you, this happened very, very early on, which means... and you have pneumonia lot and so...I'm getting the... Were you admonished a lot as a child?

Melanie: Yes. Always. Yes.

Stacey: Okay. So there is that fear right there. Right.

Melanie: And I had ADD

Stacey: So fear of being admonished for speaking about something?

Melanie: Yes. I was. And I had ADD and apparently they didn't know what it was. And so it was perceived as being uncooperative or rebellious, or bad or whatever. So there was a great deal of that going on.

Stacey: Yeah. Okay. So the stain is really reflective of that. And you know big permanent stains like, like this is something that would be really hard to get over. And you know, it can be gotten over, and one of the wonderful things about the CASH Grid it that... I mean your teeth have been bonded now but it can remove many stains, tea stains, coffee stains, and your proclivity to stains, in addition to healing the emotional issues.

In your case it's the emotional issues that definitely need healing. And the CASH Grid can do that. We can talk about that later. And then in terms of sensitive teeth. Again – sensitive, like this fear of...this sensitivity to speaking the wrong thing. Right? For fear of what will happen. Being admonished. Being rejected. Being abandoned.

Darius: Has that affected your life currently, Melanie? I mean, is there a feeling like if you speak out or if you really, you know, share your truth that it may not go the way you'd want?

Melanie: Yes. Actually in a multitude of ways, not just in one place in my life. There are multiple places where I can't speak....I can't... there's a big risk, of not just of reputation, but there's a financial risk in one area. There's risks in multiple areas, whether I speak my truth or just simply being who I am, and being fearful of being rejected for it.

Stacey: Yeah. Yeah

Darius: And quick question Stacey. I mean... is she... now her teeth are showing this like to her as a sign. I mean, if she doesn't at some level work on this or release it, or energetically transform this. I mean, will they just keep flashing sort of like the same warning sign? Or how does it... or how do these things progress. I mean is that why people teeth fall out? I mean, what's going to happen as these things continue?

Stacey: That's a very interesting question. And what came up to me is if you don't get at the root of it. Yes, indeed your teeth could fall out. And one of the things the CASH Grid does is actually strengthen the root of your teeth, which can prevent tooth loss. And prevent root canals and so forth. So you're right on the money there, Darius.

Darius: Well, let's assume they can't stop... you know when people teeth fall out they can't... it's like they can't stop it. It just does, you know and some people do and some people don't. It just doesn't ...

Stacey: Right.

Darius: And some people don't. It just doesn't... and so a lot of people now are saying, okay, 'what's the CASH Grid?'

Stacey: Tell people hold on. Alright. Hold on. We want to take everybody through a group exercise but I can see where the questions are coming in, and what I want to say about the CASH Grid, just to quell the questions for a moment. It's the Crystalline Activated Sentelligent Healing Grid that we talked about before. And we'll be talking about it later and it's one of the things that's really special about it, is that it not only heals the emotional things related to what's going on in your mouth. But it actually heals many of the physical things in your mouth. And there's special proprietary processes and they're so gentle that you don't even know they're happening. And I call it my 'divine dentist.' It's taken the pace of the dentist for me. So it's very exciting. Well, let's go to Secret Number Four and then we'll do the exercise.

Darius: Okay. Absolutely. What is Secret Number Four?

Stacey: Secret Number Four is about opening up your intuitive abilities. So you can see again. It was a combination of listening to the language. And so with Melanie listening to the language of 'sensitivities.' Listening to the language of 'stained,' and when it happened, and my intuitive abilities.

So opening up to your intuitive abilities, via meditation or being attuned to open up to higher levels of source. All those are good things to do if they resonate with you. So that you can get better information for yourself, about what's going on, what's coming up sub-consciously that you're not aware of. That's really important for you to know. And so, we...I do give away a free attendant, by the way, as part of the special offer.

But right now what I'd like to do, is combine two exercises. One I'd like to guide everybody through one minute mediation. And then I'd like to take everybody through this exercise of listening to the language of their own symptoms. And you'll do it silently. We won't be calling on you, but this will be to show you how to do it for yourself. That's sounds good Darius.

Darius: Wow. Yes. Absolutely. Oh my gosh. This is exciting.

Stacey: Okay. Can everybody just sit back and relax and close your eyes. And move your eyes to the right, within your field of peripheral vision. So there's no strain. Then back to center. And then to the left. And back to center.

With your eyes closed, move your eyes gently to the right. Back to center, and to the left. Back to center. To the right. And to the left. And back to center. And take a deep breath in. And as you exhale, just allow yourself to go into your body. Allowing your shoulders to relax. And observe your breath for a count of three breaths.

Stacey: And just enjoy this delicious moment. And while you're there, just allow to come to your knowing one symptom. One physical symptom, that you'd like to get information on. Maybe something you're feeling right now, or you felt yesterday, or last week. Don't force it, just allow it to come.

And when you're ready, bring yourself back to the present. And from this place of stillness, it's a great place to do this exercise. What we just did is something I call the one minute meditation. Now it's good if you have a piece of paper and a pen in front of you, or your computer. And I want you to actually describe the symptoms. Just take your time as you come back. And allow the words to come up, that describe your symptoms.

Sore or tight. Bloated. Thick or tense. Rigid. What words come up to describe how these... this physical symptom feels? And when does it show itself? When did it start? Just notice what thoughts come up. Allow the intuitive connection to be made for you. And just notice what you noticed. What 'ah ahs' are you having about what is related to this physical symptom.

You may already had an inkling about it or knowing. Maybe this confirms it. Or maybe there's just like 'wow, I had no clue, but this make total sense.' You will know when you're on it, because you will just make sense to you. You'll go "yup," that makes total sense." And this is something you can do anytime. That you're willing to sit down for a couple of moments and listen to what your body is saying. Okay.

Darius: I want to hear what people experienced. What came back for them? So share this with us at [www.youwealthrevolution.com/now](http://www.youwealthrevolution.com/now). Let's just share kind of what came back for you. What came in? What you learned? And also let me know, make sure...I want to make sure everybody can hear. Deanna said she's having trouble hearing so shoot me back and just say "yes, I can hear you." And so that was a very powerful thing that was done Stacey. We're already getting people writing back in here.

Quick question. With that information, then where do we go? What do we do with that? We get this wisdom. We get this intuition. We get this insight. Then where do we go? "Yes we can hear you". Good. I just want to make sure.

Stacey: Okay. So that's a great question. And... well, It's like once you know what it is, then really, you know...my...you know what comes to me, is then you know what to heal. But also you have this better understanding about it and perhaps it's a signal to you to do something different in your life, on a conscious level as well. Right?

Darius: Okay. Yeah. Exactly. Quick question, always coming up about sensitivities. How do you... people say... well I've got this issue. It's not like debilitating but I have sensitivity,

or maybe I get around certain energy, or certain product, or a certain person, or a certain vibration, or even a certain food. And I just get, you know, this feeling. What does sensitivities tell us and how do we clear them?

Stacey: Yeah. It's a great question and many people have sensitivities and they are telling you something. And whatever the sensitivity is, is what there is to pay attention to.

Darius: Okay.

Stacey: And you know, you can... it's just the same thing that you can listen to the language or listen to the words. For example. If you're sensitive to vinegar, let's say, vinegar, think about vinegar as acidic. Okay.

Darius: Yes, it is.

Stacey: Okay. And that's anger or hatred. Okay. And you think about you know, white distilled vinegar. It's distilled because you can't handle pure anger. Right? It's taboo. It's taboo to be angry. How many of us heard that?

Darius: Right. Right.

Stacey: And so, you know the same thing often times, what we know about something, if we really listen to it, can tell us something about it. But what I love. Again I'm going to go back to CASH Grid. I'm going to sound like a broken machine. What I love about the CASH Grid is you don't have to know. If you're sensitive to honey, you can just put your sensitivity to honey in the CASH Grid, and it will clear it for you, without having to know what it is. It will clear the emotional, spiritual, whatever issues that were related to it. Usually in 24 hours.

So this is one other thing that I love about this is. You don't have to know. It's interesting to know. But it will clear it up for you without you having to know.

Darius: Wow. Okay and this is what's beautiful. With that exercise, we've got a lot of things people are writing in. So I want to share some of these and then, these are things, and you could tell me whether or not this is something the CASH Grid could clear up.

We have Roney in Oceanside. He says my eyes are sore and irritated. But Roney got the message that it is what she's not or he's not willing to see. Roney in Oceanside.

Bell has sweats at nights. Muscle pain. Tightness and very tired. This happens while Bell is sleeping. Now I don't know if Bell got a message back about what's the root of that. Any ideas on Bell's situation, Stacey?

Darius: Sure. Sure. We also had Roney in Oceanside. He said, 'gluten, soy, dairy have all suddenly started being allergies in the last year, including sugar as well.' So gluten, soy, sugar and dairy.

Stacey: Yeah

Darius: And another person...

Stacey: And, and...

Darius: Ah ha...

Stacey: Go ahead. Well let's take one at a time, so just since your saying this, well, I'll comment where I can. So I always think it's interesting. Gluten sensitivity. You look at that word and say I 'glutton' for punishment. With gluten and it's so related. But all of those things can be healed in the CASH Grid.

Darius: Okay. Interesting.

Stacey: And also I want to say one other thing. When a lot of sensitivities pop up. It usually means some big issue is up for me you.

Darius: Oh.

Stacey: And it's a lot for people these days. The winds are blowing, and energies and moving us forward. And there's a lot for people these days. And so when a lot of sensitivities or a lot of some things come up in your body all of a sudden. It usually means something big is up for you.

Darius: Okay. I'm going to share a few more that came in. They're just flying in now. So Jon said, she said, I saw your picture Stacey, I knew I had to tune in. He said, so with the guided meditation, some things came up. All of a sudden I realized, now this is really interesting... that there was a person attached to my left side. I favored this side and I've have had stabbing pains and trauma through my left side for years, that have now affected my nervous system and muscles. John in Elcart literally saw a person attached there. He says, 'how do I deal with this?'

Stacey: Holy, Moly. That's a big one John. Yeah, so you saw that in the meditation and... just a moment. Let's see if there's something I can get quickly. Because it sounds huge. And you were meant to be here, and I was meant to hear this. And I'm getting that this persons that is attached to you is a spirit who... there's resistance to healing it on your part.

Just a moment. Take a deep breath and let go, John. So there's resistance, sub-conscious resistance. And so, if you can take a deep breath and let go, I can get the information from source perspective.

Just a moment. What we're saying, this can be let go of. And there's a ... a strong attraction between the spirit and you. And there's a lot to say about it. Probably more than we have time for, and if you want to hang around till the end, we can come back. Because it feels like it will take some time. Okay.

Darius: Okay. Okay. Wow. Well, now he knows and I.... it's...its... this something that....that CASH Grid could help to alleviate or clear. Or is this something even deeper than that?

Stacey: Yeah. That's a good question. And I would say that, let me see if I can detach from John for a moment. So John, just take a deep breath and I'm going to go away for a minute. The issue is one that the CASH Grid could clear, no. We say no. It actually is going to take something else other than the Grid for that one. Okay.

Darius: Wow. Okay, Okay. Now we know. Alright. So we got a few more I want to share, or should we keep going? I just want to share a few more.

Stacey: No. Keep going.

Darius: Okay. Well, alright. Then we will keep going. Okay, so tell me what is the next secret? I think we were on Number Four.

Stacey: So secret Number Five is understand that what is underneath your symptoms, is also what is keeping you from going forth and being successful in some areas of your life. So there's really this connection between the physical and what's happening in your life. So we're seeing some of that. Like we saw with Melanie about speaking her truth.

And if we looked at legs, for example. Okay. So your legs, left and right, you know something bothering your left leg. Something about going forward in relation... in a relationship. And your right leg, something about going forward in your right career. And so, you know when we clear up the blocks that are in the way of us. Then the body can open us to financial success, to career success. It's all tied together. Okay.

And so, also within these things that are in the body, there can be patterns related to it. A success pattern. Health patterns. And all those patterns that are related to the physical issues are typically healed in the CASH Grid as well. So, it's important to understand that when your body is talking to you. You might think, well, "I can't pay attention to my body because I have to work, and really your body is saying, "wait a minutes, slow down." Because this is going to help you with... you see

Darius: Yeah, Yeah

Stacey: Exactly.

Darius: Well let's...we're getting a lot of question now about what this Crystalline Grid is and how it works? Can we talk about what is the CASH Grid? Lot of people wondering, a lot of people wanting to know more.

Stacey: Okay. So I just want to just be for a moment. And what I'm getting is that, what will be good is... I want to explain the CASH Grid to you and the CASH Grid does a lot of things, as you've heard. And it is part of the special package. But I think that if we do the vibrational healing right now. People will get a sense of what is possible from the Grid, without me having to do this clearing for you. So how does that sound?

Darius: Sure. It sounds good. Can you just explain though, what the Grid is? Stacey: Okay. Okay.

Darius: So what is it, for people that aren't really sure as to.....

Stacey: Okay.

Darius: Yeah.

Stacey: Sure. Okay. The Grid is... think of it as crystals from the earth. Okay. And it is out in the universe. And it is been spiritually created between myself and source. With my ideas and source's genius. With healing modalities and proprietary processes. And so when you think about the Grid, it is energetic. It's not something you would have in your house or even need to see. But it's something that has been co-created in a simple way, using simple healing statements.

You transform those emotional, spiritual and physical issues related to what's going on in your life. As well as a catalyst... and actually how it started, and that's where the acronym CASH, comes from. It started as a propellant to the Law of Attraction. And to clear blocks in the way of attracting what there was, what you desire. And it moved into other areas, because everything is related.

So that's why the acronym for CASH stuck, and it stands for Crystalline Attraction Sentelligent Healing Grid. So ask me more questions if you want more clarifications. But that's the general description.

Darius: And so when people...a lot of people are asking, more and more about the Grid. So when we bring things into the CASH Grid. Is it a process or maybe the exercises of some the things we're going to do will help us with that. But when we bring things into the Grid, what's the process of doing that? Activating the Grid and understanding how the Grid works. Calling it forward? Any ideas on that?

Stacey: Well it's a training program. And maybe we should just go to the special offer and go through and explain it there now.

Darius: I'd like to do the exercise first.

Stacey: It's a training program and you know, we actually teach you certain statements to use. That you put into the Grid, as part of the training program. But in the Grid, you can't not use the statements with just any Grid, because the Grid has very proprietary processes. Many of which are not found anywhere else. So... so does that makes sense to go ahead and talk about it that way?

Darius: Yeah I definitely get that there's some... some ways to begin the activation of the Grid. Can we do... a lot of people are asking. They'd love to do the exercise. Is that possible?

Stacey: Yeah. We can do the vibrational clearing. And what I want to say about that is. So I will do a 'group healing', so to speak. I call this 'free to be me', and it's a vibration... it will be clearing vibrational density for you. And this is something that you can learn how to have the Grid do for you, in the training program. There's a training program for it. That makes sense? Sounds good?

Darius: Absolutely. Sure

Stacey: Okay, Alright. So everybody sit back and relax. I'm sending you the energy of love, and you may just say that you accept this energy. Or you can put your hands in receiving position. The energies are designed for you in this moment. Allow for the space of silence, as the energies are being received by your energy field.

All you need to do is 'be.' Being free to be you, is something that most everyone desires, without worry of 'did I say that right?' "Will I get rejected?" "Can I really be me, and be accepted in this world?" The answer is, "of course you can." And there's matter in your field that is contrary to that, or to something like that. Whatever it is. It's leaving. At whatever level, it is ready to leave, or you are ready to allow it to leave. You might say well, "please take it all, I'm ready." You say "okay."

Imagine to your side, a big energetic container and allow the angels to take it from your field gently. That which is ready to leave, we say Sentelligently. It's a gentle way. And you may have very strong intentions about in this moment to get rid of all that is in the way of you being you, and being free and authentic and having this glorious financially independent life.

Free to do anything you want, at any time. And we say, "allow what is ready to leave first to leave first." And then it will be gentle, and some of you are ready to open up and say it. "I know I can it, I'll go right now." And that is ambitious. And remember that you're not going to get there h overnight. It's in your DNA, and there's a long, long chain of it so to speak.

And just know that it is leaving divinely, in a way that is in your highest and best. And that it's different in any given moment. So just 'be'. You're receiving love and joy. And (deep sigh) love and joy are being infused into yourself. Because at the root, that's who you are. You may not see yourself that way, but source does. Being love and joy doesn't mean you have to be perfect or prissy or good all the time. You still get to be you. Free to be you.

And so it is.

Darius: Very powerful.

Stacey: And so before we end this we want to say that, we're continuing to send you love and joy. And the energies are continuing to process and will be processing for another hour or so.

Darius: Wow.

Stacey: So just be aware of that and allow for that. You won't really feel it, but just know it will be so.

Darius: Yeah. Lovely. I want to hear what people felt and what came through. A lot of people Stacey, I've got to say this, are literally able now I mean through whatever we did there, literally understanding some of the roots of what some physical symptoms are. I mean, I love this because, we're... people are not seeing the physical roots anymore. That why I have this this pain here. They're seeing it as "I've got this and it's because of this." They're actually...

Stacey: Good. Good. Good.

Darius: ... plugging into that. I mean I'm seeing it over and over again. I've had... I mean barely anybody has written in saying, "I've got this pain." They're actually telling themselves yeah, "this is why I have it."

Stacey: Hey! That was the point.

Darius: Yeah. I mean it's like we've plugged people in and so just everyone, I mean, just let me know what came through. What's going on? How you see things differently? And what's going on with you? Now a big question that a lot of people are asking is, "okay now, how do I sharpen this Sentelligence?" "How do I have a better understanding and begin the releasing process, now that I'm able to begin to understand what could be

causing it, but even deeper, really I want to release it.” “What’s the process of sharpening that and going deeper?”

Stacey: Okay. Well that’s the package that I call, Sharpen your Sentelligence, and understand what it’s telling you. And it includes the CASH Grid. So the best thing to do is... let’s... what is the page for them to go to Darius? And I will talk them through how this works.

Darius: The deeper work to really get some the instruction on this. I’m going to share a kind of where it is for those that want to follow along. It’s at [www.youwealthrevolution.com/grid2013](http://www.youwealthrevolution.com/grid2013).

Stacey: Okay. Good. So we’ll give people a moment to get there. And the process that... first of all, I’m delighted that so many of you are making the connection. And understanding what’s underneath your physical symptoms. That is my desire, to really empower you and this program will teach you even more and more about how to do that.

The vibrational healing that we just did. What is really good for you to understand is that you can learn how to do that for yourself and set it up so that what is in your way of ‘free to being you,’ gets cleared on a daily basis via the CASH Grid. While you sleep. So you don’t need me doing it for you. Okay. The CASH Grid will do it while you sleep. You don’t have to listen to an audio or anything. You can learn to... via the CASH Grid how to set this up to be done for you while you sleep on a daily basis.

And that’s good. Because, as much as some of you would have liked it to all be gone in one session, the likelihood is that, there will be more. And you can have it keep clearing. So you can keep feeling freer and freer and freer to be yourself.

And heal the issues that are showing up physically in the Grid as well. So let’s go to that. Understanding what your body is telling you. We have some recordings and transcripts that teach you. Number One - how to use the CASH Grid? And the recordings are set up, and there is a guide, and actual template that takes you through a two minutes process to use the CASH Grid on whatever you want to use it for. And you can be processing on average, eight different things at the same time via the Grid.

So you can have a dental cleaning, and by the way, this is very cool. The Grid will do energetic dental cleanings and actually clean and polish your teeth while you sleep and remove tartar and plaque very gently, so you won’t even know it’s happening. Okay. And that’s a big ‘woo ooh’. The first time it happened to me I woke up, I ran my tongue over my teeth and it was like slick, just like they’ve been polished at a dental office. I was like ‘woo ooh’. So it’s a very cool thing, you don’t even know it’s happening.

So you can have your teeth cleaned and you can set that up to be quarterly, It’s not to replace daily tooth... cleaning of your teeth, okay. It’s not a replacement of that at this time. Okay. But it’s like getting them polished at the dentist except you don’t have to go. And so you can have it set up to clean your teeth, to heal an issue. Like a digestion issue, and to clear un-recurring ‘free to be me,’ and other things.

You can also receive energetic nutrition on a daily basis. So you can let go of supplements, if you desire and source them via the Grid the proprietary process to tap in daily as to what you need, nutritionally for your general well-being. You’ll receive that energetically. If your visual sometimes...when I have my eyes closed I’ll see stuff going

into my energy field that I'm being given. But I won't feel anything. So it's a very cool thing.

So these are all examples and there are a couple of audios to listen to and a template that guides you through it. It's a very, very simple quick process. And it's really what I call 'bullet proof'. And you can't really mess up.

So we even have a way like if you think maybe you made a mistake and "didn't do it right. We have a way setup to, that if you think you didn't do right, here's what you say and it will correct it for you. So we make it that easy.

Darius: Wow.

Stacey: And it will heal... you don't have to know what modality it's using, or modalities it's using. It will choose divinely the right one for you. Giving your systems, your sensitivities, what's up for you in a moment. And there's even a buffer, so the likelihood of you over-processing is almost non-existent. So if you're doing other work and doing this, the Grid will sense in energetically and won't do more than you can handle at a time. The likelihood of it doing that is like .05%. And so, and if just so, it would just be slight. We've really put a strong buffer in so that we can really empower people to do these things for themselves.

Darius: Okay, I've got a few questions coming in Stacey, about the Grid and the deeper work

Stacey: Okay.

Darius: In terms of the release, I'm looking on the page and it says you release over 2000, up ... release and transform up to 2000 beliefs over a four week period. Is it something that is 2000 beliefs. I want to talk about that a little bit. So the underlying things that come up and people are wondering about. This is where they would actually go the begin releasing and transforming those beliefs. Correct?

Stacey: Right. And it can transform those beliefs and again. You don't have to know what they are. And it can be more, it can be less and ... but the good news is. It will just do it for you. It will just do it for you. It will do beliefs. It will do traumas related to it. It will do DNA related to it. It will do patterns related to it. It will do all those things and it will sense in and see what is needed and do it in the divine order. And the reason divine order is so important is because, left to our own devices, we don't know what the divine order is.

And we might choose piece first that might be harsher, and so in divine order, it makes it very gentle. So the only thing you might notice is that you're going to the bathroom a little more often.

Darius: I see. Okay. And here is something I noticed you mentioned this that 'attraction'... I mean there's an attracting piece to the CASH Grid, because that was one of the things that you talked about earlier on, as being part of that. There's an attraction piece as you attract what you desire faster. Now why would that be? Is that because some of the energy and some of the lower vibrational stuff has been healed or transformed or released?

Stacey: Well, I kind of propel that to the Law of Attraction. So there's like several steps that included in it. So if you're not attracting what you want, Number One. There's obviously sub-consciously something in the way of it happening, or worries about it. And so there're several pieces in there, in terms of attraction, that you may not be conscious of. That's when you set into motion, "I want to be aligned to attract this." It will do it for you.

And a great example I have is when I did a launch and I set it up with the Grid to align me with making a certain amount of sales on the launch. And I hit that amount and then I said, "okay," "I want more." And so I asked it to align me with more, and I hit that amount. And I said "cool." And my energy was high. It was so high. So I started with something reasonable and worked me up, and it was like double the amount I originally wanted.

And so you asked for what you want to be aligned with and it will do several things, including releasing... release dealing with your worries. All that and set it up on a recurring basis. Because stuff comes up on a daily basis, so it keeps working with you as you're intending to attract something. All the time

Darius: Wow. Very powerful. So that's one piece of this. The other thing, you've got a number of different bonuses that come with this. I'm going to share where this is again. And then we have a few questions coming in, I want to take that. It's [www.youwealthrevolution.com/grid2013](http://www.youwealthrevolution.com/grid2013). And the first one is, Sharpen your Sentelligence – How to listen to your body and understand what it is saying. That is Bonus Number One. Tell me about that bonus and then some of the others.

Stacey: Well that's not actually the bonus. That's actually I mean the program, and what I said is the bonus is a live Q & A. So you can go through the process. There's a recorded Q & A, so you can listen to. But I hold live Q & A, so if you have questions about certain things. "How would I do this?" or "how does this work?" or "is it doing what it's supposed to be?" Sometimes people aren't sure so I have live Q & As that you can come to. Or if you can't come live, you can send your questions in and I will answer them. And then you'll get the recording of them. So that's one of the bonuses. The energetic dental issues we've kind of ... we say optional. Not every wants the dental piece. So it's kind of an optional piece that's included.

Before I talk about the other bonuses I also wanted to mention that as you scroll down, that we also have recorded classes about Sharpening your Sentelligence. And so you can look at what each class is about, and decide which ones you want to listen to. So in class three, we talk about knee and joint problems or sore muscles and inflammation of kidney issues.

In class four, we talk about depression and multiple symptoms and back problems and vertebrae and what each of those things means. You know... on a spiritual and emotional level, when you have problems in those areas, then class five is about your hips, your legs, your hands, your fingers and your toes. And you learn to combine things like inflammation which you learned about in class Number One. And inflammation of fingers means something than inflammation of your foot.

And then class six is about...we talk about when to release core issues. And how to eventually get off supplements and medications. And talk about emotional causes of

heart and blood pressure and blood clots and varicose veins. So you get all of these classes and then in class seven, vital ways to adrenal glands, hormones, deep bladder. Class eight we talk about weight. That's a big one.

Darius: Wow.

Stacey: And headaches and migraines. So you go to whatever class resonates with you and listen and learn about it. And the transcripts of those classes are also provided. So if you don't want to listen to the whole recording, you can just look at the transcripts.

Darius: And one of things I think that really interesting here. It says your body talks to you all the time. And every bit of it means something. So you've got to understand what this language is and then how we can begin to release and transform these beliefs, traumas and related blocks. So they're also going to get a 75, the meaning of 75 physical and emotional ailments and symptoms. 75 and that's a huge number.

Stacey: Yes. That, I call it my mini book and it's just... it's not really a book but it's a report, which has downloaded information about the meaning of different physical and emotional symptoms. And so people just you know, love this. Because you know it really is fascinating information and you read it you go, "Huh! This makes so much sense." So it's really helpful. And then as we said before. I don't know why this is coming up, but there's also a handout on how to muscle test. And that's really helpful for you to better understand how much of a supplement to take. Or you can let the Grid give you the supplements and you don't have to worry about how to take, because it will sense in for you.

Darius: Okay. Cool.

Stacey: Yeah.

Darius: Okay. You've also have included something else called the audio called 'Letting Go.' Tell me about that.

Stacey: 'Letting Go' is an audio... it is a vibrational clearing as well. And it was created because sometimes we have... we really want to heal consciously, but we have sub-conscious resistance to healing. And so the 'letting go' audio is a download, that is a part of this package, and it will be customized and used for you when it's downloaded for you divinely. To listen to and it's what I think it's eight or ten radio eleven minutes. And it will help in you letting go of that which is in your vibrational field. That's in the way of you healing or having whatever you desire.

And we tell people to listen to it and not even set an intention and let what wants to leave, leave first. And it's really quite magical.

Darius: Wow. Wow. And then there's a few other bonuses I want to cover. One is the Sentelligent Reiki Attunement. The other one is. 'What your body is telling you,' and much more. Let's talk about the Reiki attunement is a recorded attunement. So again, nobody has to be present with you. All you have to do is listen to the attunement and it is set Sentelliently, in other words, 'sensing'. And so it won't attune you any higher or faster than is right for you in this given moment. So typically it will take you from the current level where you are to the next level.

So if you're at Reiki level two, it will take you to level three. And for those who don't understand about attunements. This attunement.....most people think about Reiki well it allows you to use Reiki healing energy through your hand. But when I was attuned for the first time. The main purpose was and I was attuned by a client, the very first time...was to open me up to higher levels of source of information so that I could get better intuitive information from my client. This was many years ago.

So attunements, many people don't know that when you're tuned it breaks up blocks in the way of you getting higher levels of sources of information.

Darius: Wow.

Stacey: So this is a one-time recording that you can listen to and it will attune you Sentelligently just right for you.

Darius: Very, Very powerful. Okay. The next piece is, 'What your body is telling you', and then there's a bunch more. So tell me about that piece. I think that you talked about that one.

Stacey: We did talk about that one. It's the same one that says the 75 symptoms and then what do they mean? That's what's in that one that I call, 'What is your body telling you? So that's actually the same one that we just talked about. It outlines 75 symptoms and what the emotional components are related to it. And then we talked about bonus five, which is how to muscle test. So you know what foods and supplements are right for you.

And by the way, if you muscle test that you are sensitive to something, you can throw that in the Grid. And then again we talked about live Q&As. That's a bonus. And then it says one live Q&A, but actually I've been having them, every month or two. So some people are just rapid learners that you learn so much on these Q&A. The most fascinating questions come in and I tap in and give you intuitive answers for those.

And then, the other bonus is for those of you are interested in taking this further. There's a coupon for \$200 dollars off the next six months of Sentelligent Medical Intuitive Training Program, which actually start this month in October. And there's just two spaces left and it's actually already started. So if that's interesting to you, there's a \$200 dollar coupon off of that.

Darius: That's would be for who actually want to be Medical Intuitives? Correct?

Stacey: Right. Exactly.

Darius: Wow. So this is...I mean for some of you that are seeing this in your life and saying, okay, "wait a minute, I've got to get over this physical symptom, I've got to change this energy in my life." "I don't want this pain, I don't want this discomfort." "And I know there's something deeper here that's wanting to be released." "So I'm going to find what that is, I'm going to release it to the Grid. I'm going to let this go and transform my life. You may find that you want to help other people do this. There's later an opportunity for that.

So for many people this is what is exciting to me. This isn't only a life path, not only making your life better, but ultimately maybe making someone else's life better. And how we say that because I believe there're so many decisions we have where our spirit is calling to awaken and do something beyond what we've done in the past.

Not only for ourselves. But for other people. So what if that toothache? What if that pain that you have? What if that abundance challenge? What if that relationship challenge? What if that physical symptom is not just something that you have to endure, but something that you can let go of, learn from, and then be a big blessing in other people's lives eventually. As you then, take that solution that you learnt to the planet.

And this is what the You Wealth journey is all about. It's at [www.youwealthrevolution.com/grid2013](http://www.youwealthrevolution.com/grid2013). There's just so many different examples. Weight loss, abundance, increasing just, clarity feeling better, and all of this. Stacey actually, what I was looking at was another page, where this was twice the price. It was some other page you had...you've actually got this for \$97 dollars, or am I wrong about that?

Stacey: No you're right. And with all the bonuses, this is value.

Darius: Wow.

Stacey: I mean at \$1450 dollars.

Darius: Oh my God.

Stacey: The full cost of the class itself is normally \$897. With all the bonuses we've added in. It's valued at \$1450. And yes, if you want to click that button that says, 'I am Sentelligent.' Some of you may not be familiar with that, but you click that button that says, 'I am Sentelligent and you can get this off this right now for only \$97 dollars.

Darius: Wow. And I mean with this they get full access so there's nothing that's keeping them from... I mean this is a really special... this is a hugely special opportunity. I mean... that much of a discount, I was clicking around and it's 50% off of what I saw somewhere else on your site. So this is literally...

Stacey: That's right.

Darius: ... the lowest of the lowest anywhere folks. And they get access to this immediately or is it something that that they have to wait for?

Stacey: Immediately. As soon as you purchase it, you will be taken to the download page.

Darius: Wow.

Stacey: Right then and there. It's immediate.

Darius: Wow. Quick question. What should they start with first, as they get that download page? We've already got a bunch of people going forward that I'm seeing come in. So what do we.... Or where do they go to first? Because I know they're going to have questions.

- Stacey: Yeah and I... it even says on the download page. I make it as easy as possible. I suggest listening to the first couple of recordings about the CASH Grid first. Learn how to use that tool first. And then you have something that's up] for you. Put it in the Grid. I often tell people you know, one easy thing if you want to just get a dental cleaning, you can put that it. It happens when you sleep. Not everybody wants that.
- Darius: That's a cool one to start with.
- Stacey: It is a very cool one to start with. And you know... and so you know also you know start with moderate things. Again you know some things of course take longer than others to heal. So that's why if you start with the dental cleaning, you can often see results right away, and like how cool is that.
- Darius: Interesting.
- Stacey: So start with whatever feels right for you. Start with simple things and then build up. It's a good idea. And then you can then choose whatever other classes you want to listen to base on what's going on in your body. You can pick which Sentelligent classes you want to listen to our read the transcripts for. And I definitely suggest you listening to the 'letting go' audio. It can be something you do before you go to bed. Or something like that. That's a good thing to do. You can download it. So those are good beginning steps.
- Darius: Okay. Wow. One person's asking. Liz in New York. 'Can we listen to all classes in one seating?' And that sounds like a lot, but can they do that, or should they break up the classes or there's so much that it's going to be difficult to do it all in one seating.
- Stacey: No. I wouldn't listen to all the class in one seating. However you can listen to the first two CASH Grid classes and get going on it right away. Without having to listen to all of it. Okay.
- Darius: Okay.
- Stacey: So if you're wondering like do I have to wait and listen to all this before I can get benefit? No. You don't.
- Darius: Okay. Now we even got a few question come in to just kind asking, well it this something you've seen results with or help with? Can we take pills, or is this something that....
- Stacey: Sure.
- Darius: Okay. One person's asking just about trouble sleeping. You know can't fall asleep, wake up every couple hours. Have you seen results?
- Stacey: Yeah. Yeah. Sleeping is... can be related to so many different things. And yes, we have seen results with insomnia without a doubt. Absolutely.
- Darius: Well I would love to do that. So if anyone have something to send in. I want to share kind of what happened during the process, because we jumped in as we want to know more about the CASH Grid and going deeper and how you begin to activate that. One person said, I definitely ... this is Anna Maria, Montreal – said. "I definitely felt things

leaving during the process. I felt completely awake now. And she said earlier I was heavy and I was exhausted and I could barely keep my eyes open.

Shaun from Dublin Ireland said, 'thank you Stacey, I felt an energy in my crown Chakra. Also when I moved my hand away from my heart, I felt the energy between my hand and my heart.

Judy in Boise says, 'I felt waves of energy coming up to my feet.' "My body, my head, my face, and I'm still feeling it."

A lot of .... another person said, 'this was incredible.' "I felt my energy lift and I feel more free." A lot of people coming in. I got a few more questions coming in. Have you seen anything with just looking younger? And I guess that's kind of a general one, but someone's asking about looking more youthful. They don't want Botox. (laughing loudly)

Stacey: Well that's very funny, because that is to come in the future, whoever is asking that. I appreciate that commercial for the future because I am working on what I call – the 'Sentelligent Fountain of Youth', which will be in the future another option for the Grid. But it's not ready yet.

Darius: Yeah. Well you know and I think also for a lot of people, I know. If I'm holding stress or I'm really in a place of like frustration. I may tense, certain parts of my face and when I'm relaxed, it goes away. And so you know, there's a lot of things in voluntary muscle reactions that definitely something like Botox does, is make these muscles numb and it's like you know, when you're a kid. I look at my kids like they have no tension in their face at all, because they're just full of joy.

Stacey: I want to say too as you're saying that. Just a couple of other things that come up here. Like one thing the Grid now does is if you've got like tense like knots in your shoulders, like tense, you know constricted muscles. You can ask...have it set up for the Grid to give you something that will relax those muscles. Like right there on the spot. Like you don't have to go get a message at moment. It will help relax those knots in your muscles and also clear the emotional issues related to – what had you being knotted up. Okay.

You know the 'letting go' audio can have you be more relaxed and more free. But 'free to be me.' So all those thing can of course help with you feeling better. And when you feel better, you look better. So there are certainly, you know things in the Grid that will help, but there's more to come.

Darius: Yeah. Yeah. Very powerful and I love that. And we've got another question coming in about. You had sleeping problems. Anything about vision? A few people are asking about vision and being able to see better.

Stacey: Okay. What we'd say is that there is the possibility of healing your vision in Grid. And we have one person, that I know of who was already been able to as a result of putting that in the Grid, got her prescription changed to a lesser prescription as a result of it. And it's continuing to heal.

And certain eyes issues have strong resistance to being healed. And so others do not, and so we would...I would, I'd say I'm getting about 80% of those who would want to heal their vision in the Grid. It could be healed significantly. It could be healed significantly.

Darius: Wow.

Stacey: Others have strong resistance to seeing something and the 'letting go' audio may help there. And that's about what we're getting right now percentage-wise. One of the things I want to say is that, when you purchase the Grid, you can think about it. Like this \$97 dollars is a lifetime investment. Seriously it's a lifetime investment and we keep improving the Grid. We put in the highest and best modalities as they come up. And you're not charged a penny more for it.

So well at 80% today. You know it may be 90% percent in a year of being able to heal the vision issues significantly. So you know, just know that once, when you get in at this \$97 dollar price, you're in. And there will be add-on options that you can buy, like the Sentelligent Fountain of Youth. But in terms of the general healing that we're talking about here. All of that is included and it will just continue to get better and better.

Darius: Wow. It will keep expanding and no doubt I know you're expanding it and people still have access. And that one of the cool things and this is a huge discount from what I saw elsewhere. So this is the only place where you can get it at this rate and get it now. So one of the things I would also say is, you know Stacey is feeling into what she believes the percentages would be. So just know that she's not willing to just blanket say yes, I'm going to work with that.

She's feeling in and telling you because she wants you to have the results. She wants you to see this, so it's very much an intuitive knowing that she's answering when we ask her these types of questions. So it's... it's very, very well felt into intuitively, you know, so she can keep these promises.

So again, Anna with the sleeping problems again, as we talked about that. Definitely you want to check it out at [www.youwealthrevolution.com/grid2013](http://www.youwealthrevolution.com/grid2013).

So Stacey, any final thoughts or anything that you want to share coming up from the interview, the group anything that you feel, that people need to know. Or that you just are feeling needs to be shared as we move people through this incredible session.

Stacey: One thing that came up is that I said the Grid will keep getting better. You know what I encourage you is if you want to start working on things. Do it now. Jump in now because there's so much benefit you can get from the Grid today. And you could what's in the way of 'free to be me'. You can get your teeth power stains removed. Sensitivities healed. Allergies healed. Start attracting what you want. There is so much you can already do with right now, today. And it will get better and better and better over time. It's already incredible in that I don't know of any other vehicle out there that is this encompassing and has this many modalities and proprietary processes and just keeps getting better, without you having to put another cent into it.

Darius: Yeah.

Stacey: So I wanted to say that. Now, but let me just tap in for a moment and see what's coming up. What I want to say is there some question on, 'will I be able to do this?' from maybe one person. And we say, Yes. It's easy. We make it really, really easy and this person is concerned that they are resistant to being able to do it.

And what we generally say, is if you're resistant to being able to do it. Put your resistant to being able to do it, in the Grid, and that's generally our answer for that. And so you see what I'm saying. If you have resistance, put your resistance in the Grid and let it heal that. And... yeah. So that's what we would say to that.

Darius: That's beautiful. Stacey thank you so very much. I'm going to share where this is. It's at [www.youwealthrevolution.com/grid2013](http://www.youwealthrevolution.com/grid2013). Class One is going to cover learning the new CASH Grid Healing System. So for those of you that have questions about what is the cash grid? How does it work? Class one and two are actually going to help you with that.

Class three is going to understand...help you understand how your body speaks. And we're going to be dealing with... she's going to be dealing with things like knee and joint muscles, inflammation, kidney issues. You just had a question with that. In order for the kidney issues to heal it's very clear Stacey said, that you understand both the symptoms and the issues.

Class Four is going to deal with depression, multiple symptoms, back problems, Vertebrae, C1 vertebrae and much more.

Class Five – hips, legs, hands, fingers, toes and inflammation. What it means?

Class Six. Heart, blood pressure, blood clots, varicose veins and much more.

And class seven. What happens when you release blockages? These are the different energy release techniques.

Class Eight is going to be sharpening your Sentelligence and bringing it all together for areas like excessive weight. Weight loss, nose, liver, headaches, migraines and much, much more. One lady even wrote in says she lost 20 pounds without even trying.

So these are all different results. I can't guarantee that you're going to get all of these different things. But the way to find out is to go forward, if this feels like a fit and see what it can do in your life. Stacey, thank you so much.

Stacey: Just one thing I want to say too Darius if you don't mind.

Darius: Sure.

Stacey: You know if people are like. "Will this work for me?" Just listen to your intuition. That's what I want to say to you. Just listen to your intuition and sensing. And if your heart is going, "boy, I really think this sounds good." Then go for it. And if part of its saying "nothing works for me." Then that's probably not right for you. So just listen to your intuition is really what we would say.

Darius: Yeah. I agree. And I'll say this too. There's a 100% risk free guarantee for people, just...you know... so that you can take that journey.

Stacey: You have 30 days to play with it...

Darius: Yeah.

Stacey: ...so and you can get a complete refund after 30 days

Darius: Wow.

Stacey: So why not jump in?

Darius: How many days does it take with to really start to understand how to use the CASH Grid? Is it a couple of days? A couple of hours? Or how quickly could they start using that?

Stacey: You can start using the Grid within a couple hours. You really can.

Darius: Wow. So there's....

Stacey: And you depth of knowledge will expand over time.

Darius: Okay.

Stacey: And so you can start using the Grid after a couple or hours, And then keep using it with different things and keep listening to more of the audios as you go along. And listen to the live Q&As. So you can start very fast, within a couple of hours. Absolutely. It's set up. After the first class you could jump right in. We suggest two classes to get all your questions answered, is a good idea. Some will jump in after one class. You know, you know yourself and how quick you learn things. It will vary. But you can jump in very, very quickly. We've made it as easy as we possibly can to use. We really have. It's very easy.

Darius: Wow. Fantastic. And plenty of time to see what happens when you use it.

Stacey: Yeah:

Darius: And we love it. It's [www.youwealthrevolution.com/grid2013](http://www.youwealthrevolution.com/grid2013). Stacey. Thank you so much for being here. For sharing these technologies. For sharing all of this incredible information and wow, we still had a lot of people writing in with different feelings and things happening, just during the clearing work. So know that this is such a powerful thing that you may want to tap into. Stacey thank you for being here and sharing this with the You Wealth Revolution audience and world.

Stacey: My pleasure. Thank you. Thank you. Thank you Darius and thanks to everybody who's been listening and for sharing your questions and your thoughts and we're sending you lots of love and blessings.

Darius: Aha. I love it. I love it.
