

 Join the World's Largest Energy Transformation and Healing Circle

**October 28, 2013**

**Interview with Victor da Ponte**

*Victor da Ponte*

Visionary and  
Developer of Quantum  
Reprogramming

**Activate, Fuse and Flow  
in Your Divine Magnificence**

Darius: Hello, and welcome everyone. This is Darius Barazandeh. I'm going to do just a quick sound check to make sure everybody can hear me.

We have a very jam-packed line; I just want to let everyone know. We came on early, and we did some intention work and almost a live prayer work for people. We had Victor on the Intention Circle ten minutes early. We had people writing in and sharing what they were praying for. We sent energy to move some of that vibration and bring people to a higher space. It was incredible, and so guys, we're going to be doing this every single day. So just know that if you want to get on early, you want to submit what's going on, what's happening, then you can submit it through the Q&A box.

Now, we have Victor Da Ponte. What I want to do is, I really would love for all of you to send me what you want to ask Victor, what needs you have and what's going on in your life, because our mission here is to make this about you. Our mission here is that our speakers, our healers, our transformationalists know what's going on with you. They know what's going on in your life. They send energy, they connect to you, they have a relationship with you. You have a relationship with them, and you are seen. You are heard. You are this expansive being that nothing can stop, that is unstoppable. The goodness that you know inside of you, that you know you are, the things that you dream about at night, the things that you want in your heart, they come to fruition.

We help you in any way possible through our love, through our guidance, through our tools, through the energy work, just through the possibility of being here every single day and letting you know that you are someone of huge value. You are someone who is incredibly special. I know, in my life, that has changed every single aspect, where the impossible became totally possible and doors opened up. So this is what we do. It's energetic. It's love. It's a whole bunch of the latest technologies.

Our guest today is Victor Da Ponte, who is going to be talking about how to activate, fuse and flow in your divine magnificence. Victor is actually going to be doing something that we've never really talked about here called an I AM Transmission. We know that the mystical and magical two words of the ancient societies were *I am*. What we say, what we believe after those words is a reality changer. It is a dimensional paradigm shift of our entire reality. This is going to be an I AM Transmission, so get ready for that.

We're going to be activating your I AM so that you can speak your dream life into being. This is an ancient truth about you that's been in your cells, in your DNA, since the beginning of time. It's very possible right now in modern society...so many of us, obviously, have turned it off. We're going to reactivate this. We're going to unfurl that DNA, and we're going to show you how to become a divine source of infinite possibilities, how to become instantly unstoppable and how to infuse these divine downloads of this truth in your DNA, in your subconscious and in your mind matrix.

Victor Da Ponte is a cutting-edge I AM alchemist. His beyond-infinite version of who we really are serves as a catalyst for transformation of infinite possibilities, and he blazes a new path for speaking one's own reality into being.

Victor is somebody who really is unbounded by time and space. His work has become so raved that some of the world's leading personal development coaches, healers and teachers have actually raved about his work and his miraculous gift – the biggest gift that we've never shared with anyone here. This is the first time, today, that we're going to share this remote healing, remote work, remotely healing people's fears, remotely healing phobias, financial challenges, energy blockages and doing all of that while people are sleeping or throughout their day, through a profound and mind-altering download that essentially said, "Stop creating from your limitations. They don't exist. Wake up. You are beyond all thoughts. You are the source of infinite possibilities. Nothing else is real. Stop your illusion of disempowerment now."

Through that download, Victor has changed the lives and changed his life in amazing ways. This single event of his transmission in his life reactivated everything that he was from the ancient times – all of the things he's known, all of the powers that he had – and he's going to bring all of that to us so that we can transform our lives.

I am very excited, and we are going to get ready. I want to share this – one of the things that happened last time Victor was here was that people started feeling like very miraculous things. One person, Sue in Texas, said, "My body feels completely different. It's like I'm in a new body. All the stiffness, aches and pains are gone, replaced with a new sense of ease and lightness that I've never experienced before."

Another person, "I'm a completely different person. There's a space between my current experience and my responses. There's more light in my face. I look younger. I visited my mom after completing your course. She commented how good I looked and told me how much lighter and fun, the way I used to be, that she missed."

Another person said, "I love your work, Victor. I encourage everyone to beg, borrow – just like I did – to use it." She says, "I had really great results, including a job offer after nine months of looking, an unexpected \$1200 tax refund and an IRA I didn't know I had from a part-time job. The list keeps growing. The more I work with this material, the happier, more relaxed and serene I am." This is Maria Kay in my hometown, Austin, Texas.

So let's do this. Let's get started. We're going to have some incredible things. Send in your questions. We have Victor Da Ponte here. Victor, welcome back to the You Wealth Revolution.

Victor: Wow, thank you Darius. That was an awesome, awesome introduction. I'm really grateful to be here. Thank you, and thank the audience for tuning in. I am very grateful to you too for being here, so thanks. I appreciate it.

Darius: I want to thank you for being on air early and sharing what's going on in people's lives and the things that seem to be keeping them back from the life that they really want. For everybody facing a limitation today, how do we use the truth of who we are to command and create our freedom now?

Victor: Beautiful question, Darius. It really starts with realizing one very fundamental thing about who we really are, and that is first and foremost, there is no separation from you and the one prime Source. Any apparent separation really is just an illusion of the senses and of the 3-D reality matrix. We are actually one with the Divine, and therefore, we are in fact the most powerful creative force in the universe. In fact, we *are* the creative force in the universe. So, there is no greater force than each and every one of us. We are *it*. It is not the big corporations. It is not the governments. It is no other person but that person that's staring at you in the mirror when you stand in front of it. You are the greatest source of creative potential that exists.

When we realize that, when we decide to engage in that reality, when we intend to contemplate that, when we intend to experience that, then every single word that we say literally starts to melt the old paradigms around us, the old reality bubbles. We start piercing through those old reality bubbles that are holding us in lack and limitation and in separation.

So, we simply decide to speak with the knowingness that every word that we say really is one with the infinite creative Source. We are, in fact, that source. I love to ask people, "What have you decided to source today?" Because you are a creative power. You are a source of creativity. You are a source that manifests into being. We just simply need to engage that reality and make it our reality. The way that we make it our reality is by commanding that it is so and commanding that we are it. We are the creative force and the source that we've been looking for. We are it. It is here now. I AM IT, is what we say. I AM the creative source that I've been looking for. I AM the source of love, infinite joy, happiness, bliss and ecstasy that I've been looking for. It doesn't exist outside of me.

I AM the very source of thought that allows me to journey into different realms in this 3-D dimension. The thoughts that I source allow me to experience beautiful or not so beautiful realities.

It is about having fun. It is about connecting with your bliss, with your joy and with your passion. Through that, our creative powers amplify 100-, 1000-, 1,000,000-fold. Then, there is no limitation, there is no lack and there is no separation. We literally command that we are infinitely blessed right here, right now. We literally command that your reality is a divine reality, that everything that you're experiencing is a divine reality. There is no separation, so you literally stop the illusion. When you do that, the most magnificent things start happening in your life. The abundance starts to show up because you laid the foundation. You laid the groundwork – the structural, mental, mind-reality groundwork – to allow that goodness, that Source energy, that beautiful expression of yourself just to flow through. So you just journey through that.

We are infinite and we are limitless, and that is what's real. So that's how, in essence, we tap into the I AM power. It's the realization that we are it. People ask, "What is the I AM?" I would just say, "Look in the mirror. You are it." You are it. We are all it, because all is one and one is all.

In the most finite particle in the universe, holographically you will find the entire universe. This is proven scientifically that infinite energy can be found in one tiny little proton. Scientifically, we are beginning to merge back to the ancient wisdom

that all there is is oneness. We create through oneness. We create through Source love. We create through the knowingness that we are a source, and rejoice and celebrate that. In doing so, we start to flow. Flow, baby, flow. That's what it's all about.

Darius: Wow. I have to say this. There were moments in that, I could see our lines light up, people writing in. There was an energy that came through. People started...this was beyond just, *Well, get rid of this challenge for me or clear this thing for me.* I started feeling people wake up. I started feeling the antennas in our audience or the DNA unfurling in our audience, the abundance coming forward for our audience. It's very different. It's a very different energy. I almost think of you like this person with this ancient wisdom just coming back and giving us all this big message, like, it's time to wake up.

How did your awakening happen? What was it like, and then what's been happening since then?

Victor: So, you know, it happened over a period of time, but there were times where there were massive downloads. Not that long ago, I really was downloaded, if you will, a divine download where a very powerful inner voice – I can't even describe how it was – but it took me beyond this realm. It took me beyond the illusion of thoughts and made me realize – showed me firsthand experientially – that I was the actual source of all the thoughts and everything that I was experiencing. So, if I am the source, what could stop me, basically, is what was downloaded to me. If I am the source of my thought, how could a thought have a power over me? It can't. It's impossible, right? It has no chance at all, because you are the creator of it.

Albeit, there are subconscious thoughts that we're not aware of, but on some level, we have participated in them. I'm kind of going on a rant here because I'm shifting the story, but the best way to deal with subconscious thoughts is just to literally connect to your passion. Then you're just going to bury those thoughts.

Going back to my story or what happened in my awakening, I was downloaded with simple truths. I call them simple truths that we can...

Darius: I like that.

Victor: Yeah, they were simple truths that I was taught to speak at my thoughts so that they would dissolve instantly so that I would have instant power right now. Without the need of going into like...

Darius: Instant power.

Victor: Yeah, you can have instant power right now, and therefore, instant, infinite potential right now by using simple truths.

For example, I was downloaded with, *It is not real. You decide what is real.* I was told, "Stop thinking it's real. Say, 'Entertain the idea that it's not real.'" In other words, the disempowerment that I was feeling, speak to that thought and say, "It is no longer real or my reality." This is one of the favorite words that people who have known my work are using and are getting miraculous results from. People are

saying, "This is no longer real," and all of a sudden, they have had this incredible anxiety thinking that the world is ending and everything, and they're in financial ruin, and they just said, "This is no longer real," knowing that they are a creative source and force. The old paradigm simply cannot hold anymore.

It's very simple what we can do. It's very simple what we can say that gives us instant power and activates our I AM presence instantly, because also these truths are encoded with divine energy. Every time you say this, it really invokes your I AM presence. Any time you no longer want to experience a certain reality, you literally could say, "This is no longer real for me," and then follow up with, "What is real is that my dreams are manifested, that everything that I desire is manifested right here and right now."

So that's basically how...going back to my experience and how I kind of started waking up to this. It was one massive download that really awakened that voice that said, "Okay, stop channeling energy. Stop merely directing energy, which is all good and well and extremely powerful, but start commanding your reality. You are a creative being. Speak your reality into being. Speak what you want, and speak what you no longer want to experience, and you will just melt away the illusions." It's as simple as that.

Darius: This is really powerful. We have a lot of people writing in questions. The big one, I think, people are writing in is, "How? How do I deal with these deep subconscious issues when I don't know what they are? How do I begin to lift some of this energy? How do I begin to move it?" I know one of the things you do is a lot of remote work. Is that a method that begins lifting this energy for a lot of people?

Victor: It does, because when I do remote work, what I do is I literally reprogram the person's reality. I not only direct Source energy and allow the Source energy to raise your vibration and to transform densities, but I also consciously choose divine realities. For example, being in absolute abundance, knowing that abundance and infinite abundance is real and your reality, for example. I really use, in my remote work, my creative powers to literally choose what we want to experience. I help people do that remotely, absolutely. It really is reprogramming our mind matrix. Choose those things that we want.

Darius: Okay, big question just came in from one person who's asking, "How do I begin to shift into this I AM energy?" How do I begin? What are some first steps? If you're here, let's say, Victor, and you're starting out and you're in a place like a lot of people where things haven't been working out, what is the first thing that you'd recommend that they do?

Victor: Who is the person that asked that question? Do you have a name?

Darius: I don't. It just came in.

Victor: If you don't, that's fine. Okay, so I will answer this first with a question. The first question is, "Who do you think you are?" If you think that you are in any way separate from this power that you are in essence, you start by saying, "It is an illusion that I am not this infinite power. I am not separate from this I AM power. I am

not separate; in fact, I've been using it all the time. I've been using it all the time." How many times have you said, "Oh wow, I'm unhappy." That's actually a creation. That actually brings a certain reality into form, because what you think and speak will shape the world – the universe – to a certain degree. It's just a matter of degree, so the better question really is, "How can I become a more powerful creator," because you already are a creator, whether you admit it, or like it, or deny it, or recognize it or not. You are a creator now, and you are an I AM creator now. So the better question, again, is asking how do I amplify it, and how do I manifest quicker through speaking what I want to experience, or thinking, you don't really even have to speak. You can think, and you can do it all in your mind, but speaking is a wonderful thing and it kind of makes it a little more powerful.

If there is any doubt, if there is any insecurity about you speaking and thinking your reality into being, then I would ask you to say, "It is not my reality. It is unreal that I am uncertain of it and I feel disempowered. It is unreal that I am not powerful. It is unreal and untrue and not my reality anymore. That is a command, and that is an unconditional command through my infinite power and presence." So, what you do is simply intend, right? Simply intend, because your reality will follow your intention. Oh yeah, it will just follow your intention. So you don't have to believe. All you have to do is decide, so just decide and intend to speak what you want into being. It's very easy. It's very simple.

Darius: You know, one thing came up for me. This is almost as if as the planet begins to change and we see some of the old structures begin to have cracks in it, is this actually creating more opportunities for people to create from this standpoint? Creating a new...is there almost like an energy moving across the planet that's encouraging people that do this to be able to be in that sort of new birth and genesis of the planet that's unfolding?

Victor: So, we are getting more and more in alignment with our I AM presence, with the consciousness that we are one with the I AM presence within us already, exactly. The planet and the frequencies of the planet and the universe are merely just facilitating this new path. While there's nothing new in the universe, but we're awakening to this power within us on a more profound level and a more widespread level. The truth can no longer be hidden, so we're in those times where the truth will be told. The truth about you is being told to you right now, and that is that you're an infinitely powerful source and the greatest creative power in existence. In fact, you are the greatest creative power, and you are one with that greatest creative power. You are one with that source.

You are one with that source, so I basically just advise people to contemplate just how profound and how cool that could be, right? Because if you are a source of creativity and of creations, then what is stopping you? Only one thing is stopping you, and that is just recognizing the truth just for a minute. You can just remember throughout the day, *Hey, I am the greatest creative power in the universe. I AM one with Divine Source. I AM one with Divine Source. I AM one with Source. I AM an extension of Source.* Wow, how awesome is that, and how much are you loved? It's infinite love that wants to flow through you. If anybody feels in the core of their being

that these words are touching them, just pay attention to it. Because what happens is you're being instantly activated just by listening to the words.

We don't really need to go into a drawn-out meditation. What you really need to do is just receive yourself. Receive the source of yourself right now. Receive and open your heart right now. Receive the source within you right now. It loves you beyond description. It loves you beyond all understanding. It is you, so stop the illusion, and that is a command that you want to tell your mind. Stop the illusion of separation. Let's have fun. Let's create our divine expression by commanding it. Command your divine expression.

Darius: I want to ask this question. We have one caller, Louise, who's asking what it is that keeps her continually in this place of being stuck. She's wondering, what is it then? Is it low energy? Is it vibrations that are just sort of like she's holding onto? Is it a fear? What is it that keeps people from really being able to actualize this? What is it that keeps us locked down from being these supreme beings?

Victor: One phrase I want to give so that you will be unstoppable. One phrase will create unstoppable, and that is, "Everything that I am experiencing I command I AM, through my I AM consciousness. I AM supreme power. I command that everything that I am experiencing is divine." Is divine, so if there's complaint, if you say, "I am stuck," "I am procrastinating," "I can't do it," when you proclaim that all of it is divine, there is no wrongness in your experience, that there is no lack of fortune, that there is no lack of abundance, that there is no lack of flow, that there is no lack of magnificence, that there is no lack of divinity within you. When you command that everything is divine, then it will start to bubble up in your reality if you just choose.

If you just choose, so will you choose is the big, big, big, big question. Will you choose? Will you stand in that reality? Will you say, "Everything else is unreal. I command this now. Everything else is unreal. Everything in my reality is divine. Every little thing, every little apparent obstacle really is just flowering into my magnificence there to awaken the beauty, the magnificent in me, the pure genius within me." How does that sound?

Darius: One person wrote in. She said, "Hi Darius. Victor's voice is magic. I was feeling so low, and now I'm listening to this call. My energy has shifted." So, very powerful. There is something very key every time Victor comes on. His voice and energy activates something in you, and it catches up to you sometimes by surprise.

Victor, as you kind of look into the audience, you feel the energy. What's the thing that you feel people are experiencing right now or that they need to know? The message maybe that they are thirsting to know, that their DNA needs to know to move into this I AM activation that we're going to be doing, actually, pretty soon.

Victor: Bliss is here. Bliss is here. You are the bliss that you've been looking for. Bliss is here. The bliss and joy and the celebration of existence that you've been looking for is here right now. It is accompanying us right now. It is within you and is bubbling up within you right now. Everyone who is listening right now, bliss is here. Bliss is here, and it's filling every cell in your body. This is what I want you to know that it is here,

and it has never not been here. It has never not been here. You have never not been it.

So, how does it feel to be a source of bliss? How about following your bliss? How about that? How about just following your bliss, following what's the wisdom that arises from your bliss? That would be cool. What would come out of that?

Darius: Change the world. We'd change the world. I mean, people would not only change their lives, they would change the world. Yeah. Yeah.

Victor: So we are the bliss that we've been looking for. We are the infinite source that we've been looking for. There is no separation. These are some of the downloads I got, *Okay, there is no separation. Stop it. Stop it. Stop doing that, because there's no one out there doing it; it's all you.* It's all you, and maybe you've been impressed with the collective consciousness. Maybe you've been impressed with your parental beliefs, but they are not real either, because what is real is you. What is real is what you believe. What you believe is real, and everything else is not real. Everything else won't be real for you, and it won't be your particular individual experience.

So, I want to invite everybody just to take a deep breath, because we are in the midst of divine energy. You always have been. Now we're just kind of bringing it in, allowing it to be here a little bit more fully, a little bit more awakened. We're allowing the Source energy from your core to awaken, to activate, because every thought that we entertain as you're listening to this thought, we are co-creating together, which is a circle, like exactly what the You Wealth Revolution is. It's a circle where we activate each other, and then we help each other raise our frequencies.

So when you raise your frequency, when you realize that you're a divine source, then you kind of start to awaken other people too. The joy that emanates from you is going to be very, very contagious, and people are just going to be happier around you. They're not going to be in resistance and fighting, because who can resist joy? Who can resist it? Nobody. It is irresistible. Joy is contagious. Joy is contagious. I love being able to entertain bliss – pure, infinite, magical, miraculous, fun, loving, wonderful, ecstatic bliss.

Darius: Very powerful. Yeah, very powerful. Very powerful. I want to say this really quick...what I wanted to say about this, we're going to be doing the I AM activation here in a moment with Victor. A lot of this, you're going to feel some very powerful energies. A lot of them will be some, maybe, you haven't felt in a long time. Some of them you may say, "Well, this sounds so straightforward. These are such simple words. They're such simple things that are coming forward here." My question to you will be, "Isn't that what the divine is? Isn't that what truth really is – what real truth really is? Isn't that what love, joy, happiness, the smile of a child...isn't the beauty of a flower?" It's the simple joys, and that may be for a lot of you the energy that we've muddled down, that we've darkened, that we've really laid heavy with so much complexity, darkness and frustrations. So just be present to what comes in.

Victor, your thoughts on that and simplicity.

Victor: Wow. Within a space of pure simplicity, of no thought and nothingness, will emerge the most magnificent things. Absolutely, from the most simple blank states, this is where your infinite potential is. This is where your creative power is – in your pure awareness – simplicity and simple words that shape your reality. You don't have to make it complex. You don't have to. It's not. It's dead simple. It's dead simple. You simply decide what you want to experience, what you would like to experience, and then think it, speak it. If you love using your imagination, by all means, use your imagination. But command in the same way the Prime Source created the universe – speaking it into being.

Darius: Oh, wow. Wow. Wow, wow, wow. I'm feeling it. People are already writing in, and we haven't even started the activation. Paula said, "This is amazing. All of my cells are dancing, and each one is lit up like a diamond. I love this. This is good."

Everyone, just connect to this bliss, this energy of simplicity. We're going to be doing this in a moment. Monica says, "I already love this call." I guess she means even with or without an activation. Plug in. Let's just be present to what's going to happen.

I'm going to let you take it away, Victor. I know this is going to be, what, about a five-to eight-minute activation. Tell me what's going to happen during the activation, or what are you going to be doing...

Victor: I don't know.

Darius: Really? Okay. Okay.

Victor: I don't know. We'll see what happens. We'll see what comes through. I'm just allowing whatever to come forward, to come forth. So whatever happens will happen, but one thing that will happen is that we're just going to be into greater expressions of ourselves. In essence, that's what it is. Okay? But we are going to be activating ourselves and our divine power.

Everyone just relax. Take a deep breath. Kind of unwind. If you're multi-tasking or anything like this, just stop for a second. Just dedicate five to seven minutes for you right now.

Breathe in through your nose, close your eyes and take your awareness deep into your body, because I want you to feel every word that I say, and I want you to co-create along with me. I want you to journey with me in through your infinite potential. I want you to just let go and allow the infinite beauty and Source energy that wants to flow through you. Let it flow, and just witness how it starts to bubble up. Witness it like a small child witnessing magic, because that, my dear friend, is what you are. You are a magical, miraculous, infinite being of light and potential.

Take another deep breath as we command that all of our tensions in our body...just kind of take a note of how much tension you may have in your body – tension or worry, fear, doubt, insecurity, uncertainty, lack – and know that all of this has no power over you. It has no power over you because you are a source of creation, and that is just a manifestation. A thought is just a manifestation that appears before you. Kind of step outside your body as you command your mind, your body. We are not

creating out in the ether, but we are commanding our body-mind matrix and our subconscious mind matrix. In other words, we're commanding our thoughts.

We're fully engaging with our full attention every thought in our body. All the I AM, all the I can'ts, all the insecurity, all the tension, all the lack, all the worry, all the fear that is there, we're literally now commanding that it's no longer your reality. For I AM one with my I AM presence. I AM one with my I AM presence. I AM one, and I command that all of my experience, everything in my body – all the tension, all the apparent lack of flow – is no longer real. All the apparent separation from what I deeply want and desire is no longer real, for I AM one.

So, now that you're going deeper and deeper and deeper and journeying with me with infinite joy and bliss, infinite creativity, we command that the Source energy within...we also invoke all the celestial energies, the celestial armies, to be with us and join us in this divine expression of who we really are. Join us in a new creation, in expanding the universe through our uniquely divine expression that you call *you*, that you call *you*. My dear, you are awakening now. You are awakening now to your I AM power. You are awakening now.

Simply allow and witness how the celestial energies and the high vibrations all around you fill up your entire room and every cell in your body and literally begin to melt all the remaining tension, all the remaining lack of flow, and we command that it's no longer real. No longer real. So we're piercing through these old reality bubbles that we no longer want. We're piercing, piercing, piercing and receiving our source energy, receiving the divine download of who we really are. We are infinite and without limit. We are loved beyond imagination. That infinite source is within you, and it's filling every cell in your body. Everything that you engage will come to be and will come to bubble up in your reality as your experience.

We now command that everything in your reality is divine. Everything in your reality is divine. Everything in your reality is divine. So, infinite gratitude begins to flow. Infinite bliss begins to flow. Infinite unstopability begins to flow as you recognize the pure genius that you are. Recognize the pure creative genius that you are, and know that it is the only reality that you are a creative genius. The genius wants to flow through you. That infinite possibility is the source of you, and you are one with Source.

I want you to journey through an I AM right here, right now, deeper, more lovingly, more joyfully, with a big yes. I AM. I AM one. I AM one. It is my reality.

Take a deep breath and witness right now, allowing deep rivers of love to pour into you, to pour into your heart. As you open up, expand in your divine expression. As you open up, my dear, oh how good it feels to be open. How good it feels to be in your divine magnificence. How good it feels to awaken and activate your divine creative power, love, light, luminosity and brilliance. How good it feels.

Take a deep breath. As you exhale, we're purging out any dense energies. Stand upright in your magnificence, upright in your I AM presence with a newfound power to create and mold your reality. To pierce through the old reality bubbles, illusions of

disempowerment, illusions of lack and illusions of limitation, taking back your I AM presence aligning to who you really are.

As you come back slowly, you come back joyfully and happily. Slowly, you come back to here in the present moment.

Darius: I'm here. I'm just going to allow everybody to come back. Wow. What was incredible to me, Victor, was there was something going on with not only my ears as I listened, but also just the frequency. There was a tone. There were a lot of things happening there, a lot of just freedom, expansion. I saw a lot of space. I felt a lot of opening up. I felt a lot of lightness, a lot of freedom. Almost like, there's a part of me that seemed like it just knew. Like it finally knew and was being heard that it didn't have to be that difficult. It didn't have to be that much of a struggle.

I want to hear what people felt and what was coming in for you. You can share at <http://youwealthrevolution.com/now>. Share. Tell us what's going on with you, because the more we share, the more we make all this a reality for people. We make it a reality in the matrix for the whole planet as we share it on these airwaves, as we share it on these recordings that go out to tens of thousands of people and go out in the airwaves, the more we change this for ourselves.

Victor, when you work with people doing some of the remote transmissions and some of the things, energetically, what have you seen happen with people?

Victor: Well, overwhelmingly, people wake up absolutely different. Where they saw things in a negative light, that just disappears and flow happens. When flow happens, good things happen, like money showing up where you never expected it. Relationships becoming joyful where they were maybe bitter and soured.

I remember there was one particular person who basically gave up the job that he hated, gave up a job where he was miserable at and just all of a sudden realized, *What in the world was I doing there?* He didn't like it, so he just got up and left. I think he also...he went and looked for another job and started making like \$25,000 more a year. All this because your reality – your divine vision – starts to open up because Source, in the infinite energy, in its infinite intelligence, starts to align you to your wisdom, to your intelligence. You start to become much more in balance, and where there is balance there is abundance.

Darius: Wow.

Victor: Abundance of everything. Everything on all levels. We would have to speak on all levels if we were to dissect what happens with the source energy transmissions.

Darius: We have a lot of people writing in. I want to share kind of some of the things that are coming in. Victor, I'm sorry, finish that last thought.

Victor: The source energy, like I said, really has its own intelligence, and it starts to align you. Your life literally starts to change, basically miraculously, before you. That's what happens when you start receiving source energy. Basically, it's the creative intelligence of the universe flowing and being pulsated into you. That is where you hear how important it is to flow and to allow. When we're in flow and we're allowing,

we're actually floating or flowing in the best direction. We're heading toward our greatest destiny when we are allowed to flow. This energy allows you to do that with a lot less effort. It allows you to flow in your I AM.

Darius: Yeah. It just feels okay. Everything feels okay, like it's all good. It's all God. Patricia wrote in. She's in Mexico. She says, "There was an extraordinary vibration. My body was vibrating with his voice, and tears began to pour. I am peaceful now."

Another person, Ruth in Sarasota, Florida, said, "During the transmission, I felt just an intense vibration on the crown of the body's head. Thank you, Victor." Another person, "Wow. My 13-year-old Labrador Retriever was sitting with me through this." She said, "When it was done," – this is Dawn – "the dog got up and got her toy to play with it. She has not done that in a long while. Your magic works with animals too." I guess the dog maybe hasn't been feeling well or not playing. Let me know, Dawn, what was...she just got up and started getting her toy, started feeling better.

Maria said, "I felt an explosion of light, a great boost like something shifted inside of me." Another person, Jill, says, "I'm shaking. Tears are running." The comments are just flooding in right now, because I think a lot of people are just feeling what was going on, just letting it process.

Another person, "During the transmission, I felt this huge opening in my crown." Mira from Framingham, Massachusetts, said, "Thank you. I feel waves of energy," and this is very much like me, "a feeling like all my worries are over." Then she says, "Regarding my daughter, she is a being of light and will overcome every seeming obstacle that she is facing. Much love."

Another person, Jamie from Los Angeles, said, "Life-changing options are opening up soon." She got a message. She says, "I'm glad I am open now to make those choices. Thank you."

Everyone, keep sending them in. I'll just share a few more pretty interesting things. One person said, "Your words heal, Victor. Thank you." Another person said, "Just when I knew Victor was on this call today, I knew I had to listen. As soon as it started, I felt vibration and ringing." So, a lot of people knew this was the place to be. This was the place where you would come and feel something very simple and profound.

It really is simple, and it really is profound. Victor, what are some of your favorite stories with people you've worked with? I know you talked about...well, I have a couple questions. First would be favorite stories, and then second of all, you talked about how the first thing you started doing with people was very personalized, remote work. Why did you choose remote work, and what was different about your remote work when you did it?

Victor: Well, there was one of those times when I received a download, but at that time, it was pure energy. I didn't receive any kind of like instructions and stuff like this like I did not that long ago. I received pure energy, and then I realized because we are all one, I can literally direct that energy to other people. So I basically started doing that, and the most magnificent things, to my surprise at the time, happened. For

example, people with phobias. I mean, like panic kind of fears would disappear. People with insecurity, a fear of speaking in public, all of these kinds of insecurities actually dissolved.

All of this while the person was not anywhere near me. They were on another continent, and they had no idea when I was doing it. This, to me, was so cool, so awesome. It was just a gas. So, word started spreading because it was kind of miraculous. People couldn't believe it. The results were real, and people's conditions – physical conditions...I had one person who needed glasses and after one of those transmissions – that was one of my favorite ones – their vision went back to normal. They stopped using glasses.

We were just dealing with something else. As a positive result or like a byproduct if you will, physical conditions that weren't even addressed...

Darius: Beautiful.

Victor: I had another person who had...I forget the name of the disease but it was where your veins kind of tighten up, and your fingers turn blue and your toes turn blue. That literally cleared up, and they'd tried everything. They were a Yoga teacher. They did all kinds of stuff to help this condition. I'm sorry I forgot the name, but it was just one of those chronic conditions, and that was a real incredible experience there.

Like I said, there was this one gentleman who literally just got up, left his job and got another job that made him, instead of \$75,000 a year, a hundred and something thousand dollars a year.

So, there is a lot. There are too many right now to remember specifically, but those are kind of the ones that just are popping in my mind right now.

Darius: It's amazing, and I want to share this. Dawn wrote in. I was asking about the Labrador and what was going on with the Labrador. Why was it a big deal that this beautiful dog was playing with the toy? A lot of dogs do that. Dawn wrote in from Tampa, and she said, "The Labrador has had hip problems and is very old. As soon as it was done, she went up to get her toy and play. It is amazing. She is now at the window barking at something. She usually sleeps all day. This was so awesome."

Animals and pets like Dawn's Labrador know energy. They feel energy. They don't over-think it, right Victor? When they feel better, they show you, whereas we're like, "It can't be that easy." I mean, they just do it, right?

Victor: Yeah. I have little dogs that are my neighbors. Sometimes they go berserk. One day I just decided, you know what, let me just send them some love. I just sat there and pulsed Divine Source energy at them, and they stopped barking. This kind of stuff is amazing. I've gotten a lot of feedback about people's animals who love to hear these activations and these I AM Transmissions. They absolutely soak it up; they love it. Cats and dogs – they love it. They just stay and hang out, and every time the owner is going to listen to one of these activations, they're right there. They know what's going to happen, and they just hang out.

Darius: Wow. Wow.

Victor: So, I've had a lot of positive feedback about that.

Darius: Paula just wrote in. She says, "I feel layers and layers peeling away. It was so nice." Camille said, "I feel plugged into an energy source, and it's flowing in bursts of light and love." So many people are writing in. We've had bunches more; I'm just trying to get through some of the highlights. It is truly incredible.

Victor, I know one of the things that you wanted to do was take people into this journey – those that really feel the space and want the space and begin to move deeper. You have something called Fearlessly I AM: 21 Hours of I AM Alignment & Activations. You talk about things where you actually direct to people Source energy. Things like unconditional love, deservingness of abundance, deservingness of prosperity, money manifested, abundance manifested, freedom of expression, self-confidence, willingness to give, willingness to receive, I AM loved by Source, I can, I do, it's possible for me, I AM blessed, I AM totally lucky, I AM empowered, I AM protected, I AM safe, I AM in a divine loving relationship...much, much more. Tell me about this Fearlessly I AM special opportunity that you have, this experience.

Victor: Yes, great. Thanks. Basically, it's all of that what you just said. Basically, there are nine hours where I actually direct the energy remotely through you. It is made up 21 hours; 9 of those hours is remote work by me. I'm directing, and I'm infusing you with your Source energy. There is no time or space, so when I connect more consciously and deeper in the session, I direct that toward you. You actually receive a code. I give people a code so that we may connect, so that there may be a more profound link between us when I do the sessions. You will be given the times where I do it so if you can, you sit down and you take it in. If you can't, that is okay too. Those who have the code receive the energy. I give you a code that's similar to, for example, Source333.

Darius: A code.

Victor: Yeah, I give you a code. When you know the code, you say basically, "Okay, I'm in this program. The code is XYZ." So you just think about it once, and now I know and now the energy knows exactly where to go. I direct it through a code. I direct it to you, to all of those who are in the program, have the code and want the energy. So, the energy knows exactly where to go; it's directly to you. Also, that code becomes energized at any time afterwards that you actually just think of the code. You sit down and think of the code, it's going to be a portal where you start to receive, more abundantly than you normally would, Source energy and activations in your I AM activation.

There are nine hours where I do this. They're going to be basically 90 minutes at a time. They're going to be mostly over the weekends, on Saturday and Sunday, so most people can...I love for people to be able to sit down and soak it up, because they just have the most awesome experience. It's one thing to receive it remotely, and it works just as well, but what happens, and the reason why I want to give you the times and the days is so you can sit down, and we can create a circle during those times. It's going to be mostly over the weekend where I do basically 30 to 45 minutes, and I just pulsate divine energy to you guys.

What happens is that you will, by your conscious presence, amplify it even more. You will receive even more than you would when you're not aware of it. Although when you are not aware of it, you're going to still receive a tremendous amount, and it's going to start to open your life up in all kinds of ways. Like you said, all that list that I do, and there are just too many to list when I do the sessions. So, I didn't write them all down there because it would be a ridiculously long list.

Then the other part – and this is cool, just absolutely awesome – is they're eight 90-minute calls. They're all live.

Darius: Let me share, Victor. We have a bunch of people asking where it is, and they want to kind of walk through going a little deeper into these transmissions and what's going on. It's going to be at <http://youwealthrevolution.com/victor2013>. This is an offering that Victor wanted to bring to our community for people. His time is so valuable, and he wanted to allow people to be going deeper into these energies and really feel his work and what it's done. It's at <http://youwealthrevolution.com/victor2013>.

First, there are nine hours of transmissions that are going to happen. We have the whole list here. I can run through them really fast. There's Unconditional Self-Love, Deservingness of Abundance, Deservingness of Prosperity...my line is, people are piling on the lines. I don't know if they don't know what time the call is.

Freedom Manifested Now, Freedom of Expression, Self-Confidence, Willingness to Give Unconditionally, Willingness to Receive, Deserving of Love from Others, Divine Relationships, Loving Love Relationships, I AM Loved by Source. That energy of knowing that you're loved by Source is another one that Victor is going to be directly transmitting.

Unconditional Joy and Bliss, Unconditional Happiness, Unconditional Gratitude, Courageousness, I Can, I Do. Here's a big one that we all need: It's Possible of Me. How many times have you felt like, *Well, it's not possible for me*. What if you knew it was?

I AM Blessed. I AM Totally Lucky – that's such a powerful one. Infinite Blessing is My Reality. I AM Empowered. I AM Protected. I AM Totally Safe. I AM Here. I AM Accepting and Flowing.

Victor, there's even more than that, correct?

Victor: Yeah, there's definitely more than that, because a lot of times I'm just guided to what to pulsate and how to shift the group into. There's all kinds of stuff that will come up, right, like you...

Darius: Quick question. I was going to say, really quick, if you just said...at some level, some people would say, "Well, isn't just one enough? Like, I AM infinite love." Would that eradicate everything else, or each one of these frequencies ends up taking the person that much deeper and doing that much more work?

- Victor: It does mean a lot, being absolutely loved by Source, but you will get even more powerful results when we start to pick away all the other illusions, right? Because you can feel deeply loved by Source, yet there could be other stuff.
- Darius: Let's talk about what else is there, because you also have another piece that people are going to be able to take part in, which are some other sessions. Tell me about that.
- Victor: Sure, sure, sure. So, the first session...there are eight sessions that we're going to live calls – 90-minute calls – where basically, we do about 30 to 40 minutes of the most profound, reality-shifting I AM Transmissions. What you heard now was about 5 minutes worth. I go through 30 minutes of just incredible downloads for you during that call, all live.
- Then I actually allow people to ask their questions, and I take them on live. Through the callers that call in, I actually work on them. Everyone else...they become sort of like a channel or a surrogate for the whole group. So, I take on callers and I realign them to their I AM presence. I align them to who they really are, and I allow them to see their infinite power and help them dissolve what no longer serves them and what is no longer real for them.
- The first call is No More Fear of Being Hurt, because one of the things that causes us to procrastinate is we actually have some fear that somehow we're going to be hurt. Of course, it could feel real, but it's actually totally false. Nothing can hurt us. So, this session activates your infinite indestructibility. All of the times where you have been afraid to be yourself, you've been afraid that other people don't accept you as you are – and I know that's an issue for a lot of people – we address that and align you to your divine expression. You become fearlessly you.
- Darius: Wow. This is the first of eight, so there are actually eight of these. The first one is the I AM Transmission, No More Fear of Being Hurt, and you said, let's set the world on fire in a good way and get ready...
- Victor: Let's set YOU on fire.
- Darius: Let's set YOU on fire. I AM Transmission number two...and this is 90 minutes. We did like, what, an 8-minute transmission, which people were really excited about. This is 90 minutes, and these are the individual ones. There are eight of them that are going to be for 90 minutes. The next one is No More Fear of Being Un-loved. No More Fear of Being Un-loved. Why is that one number two?
- Victor: Well, this is the foundation from which you can start to flow a lot more gracefully and more effortlessly, because when you know that you are so magnificently loved, fear just literally starts to melt away. We take that primal matter that we call fear and transform it into a divine expression of you. We really command that your divine expression, rooted in I AM infinitely loved by the universe, by infinite love itself, and I AM a manifestation of infinite love itself, so there is no separation. I and infinite love are one. Always have been, always will be. There is no other reality. That is the absolute reality. So, this is the session that we're going to go into and download you

with, activate your I AM abundance, activate your Source energy and your Source love.

Darius: Wow. I want to say this. Thea just wrote in. She said, "I came into Victor's talk late, just wanting to listen to something while I did the dishes and was surprised to feel heat and joyfulness bubble up from inside of me. I stopped working, sat down with the computer plugged into big stereo speakers cranked up loud while he spoke. I felt physical stress and tension literally melt away and all of this happiness and clarity flow in. Amazing. My neck actually physically was very tight. Now I feel completely good."

I mean, this is someone who just came on late. Again, that was a, what, five-, eight-minute activation. Victor is offering his time to go deeper. Not only these transmissions, which are nine hours of remote transmissions, but you're going to get on a call with Victor eight of them. Each one, we're going to be removing and installing a new way of being, and this is at <http://youwealthrevolution.com/victor2013>.

I just want to keep going through these because I'm feeling, as you talk about this, I feel just the vibration already. The next one is about abundance, and that's transmission number three, called Unlimited Abundance to turn up unlimited abundance in limitless quantities. Tell me about that.

Victor: No More Fear of Unlimited Abundance. People are afraid to actually embrace their limitless abundance. So if you are in any way, in the most minute way, afraid of being unlimitedly abundant and having a life where everything is abundant, then this call is going to shatter those old reality bubbles. You're going to enter into a new one, and you're going to journey into a new one.

What drives me? What makes me do this day-in and day-out? It's the unbelievable life transformations that happen. I mean, the testimonials, the comments, the love and support from people who receive this have been absolutely awe-inspiring, shocking sometimes, just such a thrill, exciting. I can't even contain myself because people's lives are shifting on such a profound level that I'm just beside myself sometimes. I'm just like, yes. Yes, because we're literally changing your reality. We're literally making you say yes, an infinite yes, to the goodness of you. An infinite yes to your divine abundance, to your divine expression, to the you, to that you – that divine you. It is so powerful, and the reason why it's so powerful is because you are so powerful. That's why. Because we are so powerful. Because Divine Source is within us, there is no separation.

So, abundance is a beautiful thing. It is our right, and it is who we are and it is what we are, and everything else is just an illusion. So, that's number three.

Darius: Wow. I want to share. Another person said, "I love the sounds Victor does while talking. It resonates with something in my vibration. It makes me connect with Divine Source."

The next thing is going to be vibration transmission number four, which is No More Fear of Being Infinitely You.

Victor: Infinitely you. Infinitely you. Infinitely you, because that's what you are. You are infinitely you. There is no end to you, and there is no stopping you. There is no stopping you if you decide to be absolutely, infinitely and unconditionally courageous and fearless. You can choose to express infinite fearless. You can choose to express that infinite you, that limitless, unstoppable you.

Our thoughts and our words shape our reality. This is why I use simple truths. For example, I AM infinite. I AM infinitely and unconditionally unstoppable. That is actually the truth, because nothing can actually stop you because you are a source of infinite possibilities. That is what's real, and everything else is an illusion that says the contrary. That is call number four.

Darius: I want to share what one of our listeners wrote in. She said, "I just want to let you know about my experience with," I guess she was somebody in the I AM Transmission, "last night's I AM Transmission. I was sleeping during the transmission. It was 2:00 a.m. in Australia. When I woke up, I felt awesome. I completely forgot about the transmission. You worked on self-judgment and honesty. When I checked, I am a zero out of ten, meaning no self-judgment. I checked a few times. This is a total surprise for me. I was feeling totally grateful for my life when I got up."

Just incredible. Yeah, let's talk about the next piece, which is I AM Transmission number six, which is No More Fear of Your Soul Expression.

Victor: So, what are you passionate about? What is your soul's calling? What is your heart's calling? We are going to align you to that soul expression and that soul purpose. So, no more fear of it. No more denying it. No more suppressing it. It is over. It is done with, and no more of that lack of flowing through your soul expression. What you are here to bless the universe with. What you are here to bless everyone around you with. What you are here to source.

Darius: Wow. Let's go through the other transmissions. I'm going to tell people where this is again. It's at <http://youwealthrevolution.com/victor2013>. Tell me about the next one, Victor, which is the Fear of Flow. Why do people have a fear of flowing? What is this fear of flowing?

Victor: Because they are afraid of what's coming in the future, they're afraid to just flow with it. They're afraid because they judge it. There is judgment, and where there is judgment there is fear. So when we stop fearing, when we stop judging, then we're going to be able to flow effortlessly, gracefully, infinitely, unconditionally, knowing that everything...that we're being guided by the Divine. That the Source within us is guiding us to the greatest possible place and experience. Through that vision, then we can overcome and we can literally dissolve and pierce through the illusions of fear, and pierce through the illusions of fearing that you're going to lose, fearing that somehow you're going to lose out on something or get hurt, or whatever the case may be. Whatever the perception may be that doesn't allow you just to flow with it, just to flow, just to know that you are being taken care of. To know that every step is the right step if you just see beyond any fear.

Darius: Wow.

Victor: See beyond any doubt. See beyond any self-judgment. So, we're going to dissolve the deepest roots of self-judgment, the deepest roots of fear, the deepest roots of criticism and condemnation of whatever's happening before you. Because when we condemn anything around us, then we stop flowing. We stop flowing. We cut off. We cut off, and so we're going to dissolve these illusions.

Darius: Wow. Wow. I love it. I love it. We have two more – the Fear of Awesomeness and Manifesting Your Dream Life. On these 90-minute calls, you are...it's a full transmission. Tell me about what's going to happen on these calls specifically as you go through and do them all.

Victor: Specifically, the first half-hour or so or 45 minutes, I actually go through the reprogramming of your reality into alignment with each one of these topics. Then, I work on people individually and for the call and for the callers all at once. So, I work on one person or deal with one person, and collectively, everyone shifts to that one person. But, everyone brings their unique challenge. Through that unique challenge, everyone shifts.

There's a part dedicated to live calls. You literally get a personalized alignment – an I AM alignment – aligning with your I AM expression on the call. You have eight chances to have one-on-one work with me, to have me personally help you see beyond anything and flow into your magnificence.

After that, I ask for basically any questions from the general...the people who were on the call.

Darius: Yeah, fantastic. Fantastic. Let's go through the last two, and then I know there's a bunch of other things that you're also doing for people. This is at <http://youwealthrevolution.com/victor2013>.

Victor: No More Fear of Your Awesomeness, baby, because you are infinitely awesome. That is what's real. You are absolutely awesome, absolutely awesome, so any thought in your mind that's saying that you're not is going to be dealt with. That's what this session is about. We're going to infuse you, download you and reprogram you to accept – absolutely accept – your absolute awesomeness, because each one of us is a manifestation of absolute awesomeness. If you're not aligned, if there's a thought in your mind that says, "I am not awesome," and you would like to feel the deepest truth of your awesomeness, this is what this call is going to be about.

Again, no more fear, because most of this stuff is just fear. Fear has no power. No power over you.

Darius: Very nice. Very nice. The next one that you're covering as well now is the Fear of Manifesting Your Dream Life. You're going to infuse people with the energy of releasing that fear so there's no more fear, and then take their deepest questions – the things that are coming up for them – and give them personal support so they can manifest that dream life.

Victor: You see, we deserve it all. There are too many people who literally feel that they don't deserve it, that they can't do it, that it's impossible, that they can't have it all, that it is not for them, that I am unworthy, that I am undeserving, that I am yada yada

yada. All of these, and the collective imprints that we have from the world saying that money is bad, that we shouldn't flow in wealth, we shouldn't flow in abundance because people are suffering or whatever. All of these thoughts that are holding your dream life back, we're going to deal with a series of these and all of those primary thoughts that just stop you from saying, "Okay, my dream life is the reality now. My dream life is the reality now."

Because a lot of people are waiting for their reality, their dream life to manifest, but because we create from the inside out, we are going to download you with, "It is my reality now." The words will shape your experience. It is, "Everything in my dream life is here now," so we lay the foundation and then we allow you to receive whatever wisdom, whatever transformation you need to align to that, because you deserve it.

Darius: We have a question from one caller who's asking, "What if it's been a very long time since I last believed in myself or my ability to manifest?" She's saying it's been over 35 years. This is Margaret. For someone like Margaret, 35 years...is there a time when you get to the point that the energies are so imbued or so locked-in that it cannot change, or is it always changeable?

Victor: It is not who you are. You are not unable to manifest. It is an illusion, and it doesn't matter what a thought...it doesn't matter how deeply rooted it is. It doesn't matter if you bring it from other lifetimes, from 500 lifetimes ago. It doesn't matter because you are a source of infinite power. You are a source that allows thoughts to be real or to be unreal. So whatever reality you think is real for you, this is what you're going to learn. You're going to learn to un-create the 35 years of being unable to manifest. You're going to learn how to tap into that infinite power so the thought that...the perception that you're seeing and the reality that you're saying, that your mind is saying, "Is it real," becomes unreal.

In other words, the reality is that I have not been able to manifest what I want, and it's been 35 years. You see, there is only one person that can get you out of that truly, and that is you. I'm going to empower you so that you can see beyond that illusion. Does that make sense?

Darius: Yeah. Yeah, completely. Completely, and I want to share with people what's kind of going on. When does this start? It looks like it's starting up, and how long does it go for? What happens if people join up early? What's going to happen with them? Tell me a little bit more about some of the dates and things that are going on with Fearlessly I AM: 21 Hours of I AM Alignment & Activations, live. This is live, folks, all live.

Victor: All live. It starts November 13th, and it runs through December 3rd. Every live call will be available for replay if you cannot make it, so do not worry that *I cannot make it at the time. I'll be working*, they're in different time zones or anything like this. This is not something that is of concern or is going to take away from the experience, because you are going to be able to be there every time, immediately after if you can't make it.

If they sign up early – I haven't even thought of that. I'm getting that if they sign up early, like right now, we're going to have to do something for them, aren't we?

Darius: Yeah.

Victor: So, how about...

Darius: Yeah. I'm going to say, yes, absolutely.

Victor: So, everybody who signs up early, I will start doing remote work every day until it starts. How about that? Fifteen minutes every day until it starts to that group who starts now. So, you get rewarded for signing up early. That's cool. I hadn't even thought of that.

Darius: Yeah, absolutely. Okay, this starts...I'm going to give people the dates. A lot of people are asking. It's the Fearless I AM program at <http://youwealthrevolution.com/victor2013>. It starts on, let me give you the dates...

Victor: November 13th.

Darius: November 13th. It runs through eight of the most limiting beliefs and energies and releases them, plus you are going to be transmitted from Source energy remotely. Victor will direct Source energy to literally dozens and dozens of blocks and fears and issues of worthiness that you may have been carrying around. Really, there are several things going on there, and this also includes a few other things: I AM Genius, So Lucky! and Soul Mate Fusion. Tell me about those three areas that you're adding to this, Victor, and why. Why would you want to add things like I AM Lucky or Soul Mate Fusion to this program?

Victor: Beautiful question. The reason why is because if you don't actually believe that you're lucky, what do you think your experience will be?

Darius: Unlucky.

Victor: If your mind is saying, "I'm not that lucky," or, "I've never been so lucky," or, "I'm not blessed, I'm not that blessed," how about...what would happen and what would your reality...what would start showing up for you if you were to download into your mind matrix – into your reality mind matrix – that you are so incredibly lucky. So, so, so divinely lucky. Absolutely blessed with every step that you take. Absolutely supported by the universe.

So, would you like to experience that? Would you like for that to be your experience? Would you like to be a source of that? Because ultimately, it will flow through you. You will be sourcing it. So, these are 15-minute MP3s that you are going to receive. You just listen to it, and it will guide you in the re-creation of your reality into I AM so lucky through the I AM power, through the I AM commands, through the I AM creative power that's within you.

You just sit back and relax and take it in. Just pay attention to the words that are being spoken, just like you're listening now. Your reality will shift because we're speaking deep truths. We're speaking from a place with absolute and unlimited

power. So, no thought will be able to take this I AM totally and unconditionally lucky. It will be implanted in your reality.

The other one is I AM Genius. I AM Genius. Ask yourself this question: Are you genius? Is genius pouring through you? If you answer, "I don't know," or, "Maybe," or, "A little bit," well, how about if absolute genius is absolutely flowing through you. Absolute creativity genius is flowing through you. How would your life be? That's Bonus #1 and Bonus #2.

I personally enjoy being with my soul partner – my wife. We met, and the way that I was able to align with her, I'm going to record this for you for you to keep. You're going to be aligned, heart-to-heart, with that soul mate where you're able to love and give love unconditionally. This is how soul mates actually attract, because they decided no longer to look for the happiness in the partner but be a source of happiness for the partner. So, I love you, but I'm happy without you.

This is what is downloaded into you so that you may effortlessly flow into them. That person who wants the same as you, who is beyond detachments of relationships and has a greater purpose for that relationship. Not to be filled by that relationship, but just to have that loving partnership and to come with I AM already full, I AM already fulfilled, I love myself and I AM happy and content within me. When you infuse that vibration, then you will attract a soul mate.

Darius: I love it. I love it. All of this is included in this package. There are two different options. It starts November 13th, live, but also you're going to get work right now if you decide to join.

There are two options if you want to do this. One of them is one payment of \$197, which is just an incredible rate for what's going to be happening here, or if you want to do two payments, it's just \$100 now and then another in 21 days. Victor, this is your core work, these remote transmissions. Why did you decide to do this for the You Wealth audience?

Victor: My goodness. I just can't help myself. It is just my purpose; it is why I'm here. It is what I'm supposed to do, and I just do not question it anymore. I just do it. This is what I'm here to do, to be a connection and a channel for this energy, for this consciousness and for this empowerment. I wanted to give something ultra, extra special for the You Wealth...and there's one little extra bonus. Well, it's not that little, but anybody who purchases this also gets, on top of, by the way, like you said, it's extra affordable. For what you're getting, it's the deal of the century. On top of that, anytime if you do any other upcoming programs with me, you're going to get \$25 off any other programs that are valued at \$100 or more. So, I just kind of want to remind everybody about that. That's in there.

Darius: Wow. Wow, very, very powerful. It's at <http://youwealthrevolution.com/victor2013>. Victor, really quick question. Who is this for?

Victor: It's for anybody and everybody who wants to be more empowered, who wants to...it's for those freedom seekers. It's for the people who want to experience their

magnificence, who want to align with that infinite possibility and for those who want to know and experience that everything truly is possible.

Darius: Yeah. Yeah, wow.

Victor: And want to be supported with remote work. It's going to make it easier on you to get into that alignment, because I'm here to support you throughout this period. Remotely, I'm here for you and I'm going to be connecting to your heart and to your body. I'm going to be also aligning your chakras. Actually, during one session, I will align...I will intentionally fuse and infuse energy into your root chakra and into your...we didn't talk about that. This is kind of like a technology that was kind of like downloaded to me, and that is what I call chakra fusion. I literally remotely fuse your chakras with divine energy, so each chakra takes on its own expression of fearlessnesses. So, your root chakra takes on its own expression of fearlessness. Your sacral chakra – that passion for creation and creativity – takes on its own expression of being fearlessly I AM. So on and so forth.

Your heart chakra takes on its own expression of I AM fearless, and all of those...and a series of infusions – fusions, I really like to call it, because fusion is taking two energies and making them one. So, really what we're doing is fusing Source energy – the infinite and pure intelligence of the universe – with you, the finite expression that is manifested as you. Through that comes forth, the flowers open, or springs forth a new expression that expands the universe. This is what the universe is waiting for you to light up. For every one of your chakras to light up in Source fusion and be a new expression, to become one, a new novelty in the universe because this is what the universe loves. This is what you love to experience, a new experience novelty. This is what it's all about, and it's all about you. It is all about you. Literally, it is about you. It is about each and every one of us.

Darius: Wow. There are a few other questions coming in I want to just share really quickly. It's at <http://youwealthrevolution.com/victor2013>. One person is asking, "Will this package help me learn to help heal myself and be able to really tap into this myself?" Victor, your thoughts?

Victor: You will. Actually, every time you go through this, you become more and more empowered and more and more confident because we're going to dissolve the I AM lacking confidence, I'm not feeling secure, I'm not feeling infinitely powerful, I don't feel it, etc. All of these are just thoughts that are not allowing you to align with that infinite and confident expression of you. So, these are the things that we will deal with. These are the things we will dissolve. As you go through this, you'll become more and more empowered, and you will start to own this energy. You will start to own it because you will start to experience it more and more.

Just like anything else, the more you immerse yourself into it, the more it just becomes a second nature. This is basically what happened to me. It just becomes second nature. It is my reality, and it will be your reality.

Darius: Yeah. Yeah, very powerful. We have a lot of people excited, a lot of things happening. Wow. Let me just check real quickly to see if there are any other questions people have or anything else that we can address. Wow.

A bunch of people writing in. There are still a lot of questions. Victor, I know we've gone long. The big common theme, the big thing that I think we're seeing from a lot of people is what is different than maybe things they've been exposed to in the past? This is something I'm seeing again and again. People are saying, "This feels different. I can't put my finger on it. I'm feeling energy. I feel great after this call." For those that are wondering, what is different between this program and maybe some others that they've seen or things that they've done in the past?

Victor: It's pure creative power. I mean, it's as simple as that. We are fully embracing without any reserve, without any fear. Fearlessly, we are being the I AM, and we're being the consciousness that we are infinitely powerful and that nothing can absolutely stop you. There is no limitation. Everything is absolutely possible. You are it. You are the source. The difference...I don't know what the difference is. All I know is this: you are unlimited. The source of infinite possibilities is expressed as you, and we're entering into that consciousness.

What happens is it's a planetary thing. This just happened to be birthed through me, my unique expression, my gift to the world, my gift to the universe, and it's just my unique expression. I'm just here to blaze a path to help you fully embrace who you really are. It is just embracing who you are. There is nothing else. It is just who you are. It is the essence of who you are. That's what this is.

Darius: I love it. I love it. Victor, thank you so very much. This is at <http://youwealthrevolution.com/victor2013>. It is an incredible emersion of energy and remote healing, remote clearing, remote transmission, a remote energy shift. Plus, deep calls, eight of them; 90 minutes that are going to be moving the energy around no more fear of being hurt, having no more fear of being unloved. No more fear of the unlimited abundance that is yours. No more fear of being infinitely you. No more fear of your soul's expression. No more fear of being in flow. No more fear of your awesomeness. Your ability to be everything that you are, unstoppable, and no more fear of manifesting your true dream life.

All of that is here. You can take a look, plus much, much more. What a gift. Victor, thank you for being here. Thank you for sharing, and thank you for offering this incredible package to our amazing audience at the You Wealth Revolution.

Victor: Thank you, Darius, and thank everyone for joining. I love you guys, and I just look forward to journeying and expanding with all of you and continuing this bliss and Source possibilities. So, thank you.
